Work continuing on Old Mooney Mooney Creek Bridge on the Old Pacific Highway

The NSW Government is investing in this maintenance work to ensure continued safe operation of the bridge.

Roads and Maritime Services will continue to carry out the work, which includes repair to steel elements of the bridge. The site compounds at both ends of the bridge will remain until the project is complete.

We will continue to work between 7am and 6pm from Monday to Friday and between 8am and 1pm on Saturday and expect to complete the work by late February, weather permitting.

No work will be carried out during the Christmas period from Monday 24 December to Friday 4 January 2019.

We will let you know in advance if we need to do any work outside these times.

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Traffic changes

There will be minimal impact to traffic. Work will be carried out from scaffolding or a platform under the bridge and will not obstruct traffic.

Pedestrian access will be maintained. On occasion, the stairs next to the bridge which provide access to the Great North Walk may be temporarily obstructed and a member of the project team will be on site to escort pedestrians providing a safe passage around the work.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Manager, Mo Farhat on 0438 993 017 or mo.farhat@rms.nsw.gov.au.

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
Essential maintenance on Old Mooney Mooney Creek Bridge
