JULY 2014

Investigation work on Glenfield Road, Glenfield – Pinch Point Program

Roads and Maritime Services will carry out essential field investigation activities for proposed work on Glenfield Road between Campbelltown Road and Brampton Avenue from Monday 4 August.

Roads and Maritime is proposing to widen Glenfield Road, from Campbelltown Road to Brampton Avenue. This $7.4 million project is part of the NSW Government’s $246 million Pinch Point Program to reduce congestion and improve travel times. The program aims to reduce delays and manage congestion on Sydney’s main roads, particularly during weekday peak periods, as well as improve road safety for all road users.

To progress design for improvement and upgrade work, Roads and Maritime needs to carry out field investigation activities. Roads and Maritime have contracted DownerMouchel to deliver this work.

**Project Features**

The following changes are proposed to help reduce traffic congestion and improve travel times:

- Reduce queuing and waiting times for vehicles turning left and right from Campbelltown Road into Glenfield Road
- Prevent vehicles using the unsealed verge to turn left from Glenfield Road into Campbelltown Road
- Improve traffic flow on Campbelltown Road and Glenfield Road through traffic light timing
- Improve pedestrian amenities

The field investigation activities include surveys of the road surface and surrounding landforms and environmental investigations covering biodiversity, noise and geotechnical, and will be undertaken during the next few months.

Some of these field investigation activities will need to be undertaken through private properties. Impacted owners will be contacted separately to gain permission to access their property.

This essential work will be carried out from **7am to 6pm during weekdays and 8pm and 5am during weeknights** between Monday 4 August and Friday 26 September, weather permitting. A map has been provided to better explain the location of the work.

**Changed traffic conditions**

The majority of the work will be carried out off the road using surveying equipment and other hand-held technical equipment.

The work being undertaken at night minimises the number of weekdays needed to complete the work, thereby reducing the impact on the high traffic flow on Glenfield Road during weekdays.

Phone number: 1800 332 660, email: enquiries_nsw@downermouchel.com
In some locations there will be partial lane closures in place while work is carried out to ensure the safety of road users and workers. Road users are asked to follow the direction of traffic controllers, adhere to reduced speed limits and follow traffic signs.

There will be some noise associated with this work. Roads and Maritime and DownerMouchel apologise for any inconvenience this work may cause and appreciate the patience of residents and motorist.

Up to date information, including any date changes and detours will be displayed on electronic message signs along the road.

For further information please contact DownerMouchel on 1800 332 660 or enquiries_nsw@downermouchel.com. Outside business hours, or for more information on scheduled road work, visit www.livetraffic.com or download Live Traffic NSW App or call 132 701.
