Mona Vale Road Upgrade: Stage One Completed

Member for Pittwater Rob Stokes today said construction has been completed on stage one of the Mona Vale Road Upgrade Project.

Work commenced in October on the introduction of additional lanes between Foley Street and Daydream Street at Mona Vale to assist with traffic flow and help improve motorist safety.

Meanwhile, community feedback on the recently published concept designs for stages 2 and 3 is currently being reviewed and necessary land acquisitions along the corridor are being completed.

“This initial stage of works has started the ball rolling on this massive project,” Rob Stokes said today.

“The road has been widened, additional lanes have been added and the roundabout has been reconfigured to help improve traffic flow.

“Importantly, an enforcement area is now available for NSW Police to monitor vehicles travelling east towards Mona Vale.

“This is the first major capital improvement to Mona Vale Road in over a decade.

“Whilst this is a huge project, and much more needs to be done, it’s a welcome Christmas present for Pittwater residents.

“Landscaping works are scheduled to be carried out in the New Year - but all changed traffic conditions have now been lifted.

“Further details on all three stages of the Mona Vale Road Upgrade Project is available by visiting www.rms.nsw.gov.au/projects/sydney-north/mona-vale-road

“Thank you to everyone for their patience and understanding whilst these improvements were introduced,” Rob Stokes said.
