# Test method T1401

## Artificial weathering test of paint

### 1. Scope

This test method sets out the recommended practice for operating the light and water exposure apparatus (carbon-arc type) for the artificial weathering test. The method includes the procedure for measuring and controlling the various conditions of test, including the preparation of test specimens. The procedure is derived from the American Society for Testing and Materials, Standard Designation G23-69.

### 2. Apparatus, Operating, Conditions, Procedure and Report

This method is identical to the procedure set out in A.S. 1580.483.1 for type D apparatus.
