		Date on Test Method Revised to Agree with Date on Revision Summary	D.Dash	Feb 2001
Ed 2/ Rev 0	All	Reformatted RMS template	J Friedrich	October 2012

Note that Roads and Maritime Services is hereafter referred to as 'RMS'.

The most recent revision to Test method T302 (other than minor editorial changes) are indicated by a vertical line in the margin as shown here.

# Test method T302

## Compacting factor of concrete

### 1. Scope

This test method sets out the procedure for determining the compacting factor of concrete, provided that the nominal size of the aggregate does not exceed 40 mm. The test is designed primarily for use in the laboratory but, under suitable circumstances, it may be used in the field.

### 2. Test Requirements, Procedure and Reporting

The method is identical with the procedure described in Section 2 of AS 1012.3 - Methods for the Determination of Properties Related to the Consistence of Concrete.
