Test method T316

Mass per unit volume of hardened concrete (Rapid measuring method)

1. Scope

This test method sets out the procedure for determining the mass per unit volume of hardened concrete specimens of regular shape with a minimum of defects.

2. Test Requirements, Procedure and Reporting

The method is identical with the procedure described in Section 1 of AS 1012.12 - Methods for the Determination of Mass per Unit Volume of Hardened Concrete.
