WORK COMPLETED ON THE GWYDIR HIGHWAY NEAR MIA MIA CREEK

Member for Barwon, Kevin Humphries today announced the completion of road improvement work on the Gwydir Highway near Mia Mia Creek.

Mr Humphries said the NSW Government had provided more than $2 million for this work carried out on the highway, between 13 and 23 kilometres east of Moree.

“This work will provide the 1450 vehicles which use this road each day with an improved surface, and safer road. It will also reduce future maintenance costs,” Mr Humphries said.

“The work involved widening the road seal and shoulders.

“This will also accommodate around 200 heavy vehicles which use this section of the highway each day.

“The work which began in November was completed in nine months and will be completed this week.”
