MITCHELL HIGHWAY IMPROVEMENTS NEAR BRIGENDOON COMPLETED

A $2.1 million project to improve the Mitchell Highway near Brigendoon, east of Trangie, has been completed.

Member for Barwon, Kevin Humphries said the project included extending the shoulders to two metres and sealing seven kilometres of the highway.

“The shoulders were widening to improve the safety of the highway for all road users,” Mr Humphries said.

“A new layer of gravel was then added and the road sealed to improve the road surface along this stretch of the highway.

“Roads and Maritime Services carried out the work, seven kilometres east of Trangie, and was able to deliver this project ahead of schedule.

“Motorists are thanked for their patience during the roadwork which started in October,” Mr Humphries said.
