MAINTENANCE STARTS ON McIntosh STREET, FORSTER

As many motorists in Forster are aware, work has started on rebuilding McIntosh Street between the Kularoo Drive roundabout and Helen Street, Forster.

Member for Myall Lakes, Stephen Bromhead said Roads and Maritime Services (RMS) has provided $800,000 for the maintenance.

“This work is being carried out by Great Lakes Council and involves rebuilding about 600 metres of the road in both directions,” Mr Bromhead said.

“This road is the main southern entrance to Forster and Tuncurry and it is important to showcase to visitors and residents alike that our community is proud and welcoming.

“This road carries a lot of traffic and the project will improve road safety and provide a smoother road surface for all motorists, resulting in reduced ongoing maintenance costs,” Mr Bromhead said.

Work will be carried out weekdays between 7am and 5pm. Saturday work will be carried out between the same hours, when required. Local residents will be notified in advance when night work is required.

Work is expected to be completed by the end of March, weather permitting.

Motorists may experience minor delays during this work.

“I ask all motorists to be roadwork aware, slow down and take care and be careful when using any detours that may be required and please remember that roadwork speed limits are enforceable, Mr Bromhead added.
