TEMPORARY BUS STOP CLOSURE IN NORTHMEAD

Roads and Maritime Services (RMS) will temporarily close a bus stop in Northmead as part of a bus priority project.

“The bus stop on Windsor Road northbound near the Hammers Road intersection will be closed from Monday 2 April until late this year,” Member for Baulkham Hills, David Elliott, said.

“This will allow work to install a combined bus lane and bus bay to continue. The next stage of this project involves moving utilities, drainage work, road work and footpath restoration.

“While the bus stop is closed, passengers will need to use the nearest stop, which is on Windsor Road near the intersection of Moxhams Road.”

“RMS apologises for the inconvenience this will cause some bus passengers, but the temporary closure is essential to complete the bus priority work,” Mr Elliott said.

The bus priority project will improve bus travel times and reliability and is expected to be completed by the end of this year, weather permitting.
