RMS FUNDS CYCLE WAY TO MACQUARIE UNIVERSITY

Roads and Maritime Services (RMS) is providing up to $800,000 to City of Ryde council for the second stage of a shared path for pedestrians and cyclists which will link Macquarie Park train station and Macquarie University.

“In 2011 RMS provided $1 million and carried out work to build stage one of the shared path, which runs from the corner of Wicks and Epping roads at North Ryde, along Waterloo Road near Macquarie Park train station and on to Lane Cove Road,” Member for Ryde, Victor Dominello said.

“Work to build stage two will also be funded by RMS, but will be carried out by the City of Ryde council.

“The second stage will run from Lane Cove Road near Macquarie Park train station, along Waterloo Road to Herring Road to the university. It also will link to Shrimptons Creek cycle way and Macquarie Park shops.

“The finished shared path will be around 2.2 kilometers long,” Dominello said.

The project is an extension of the existing Epping Road shared path built as part of the Lane Cove Tunnel project.

The completion of this link provides an off road shared path from Macquarie University to Epping Road and the Gore Hill Freeway to Naremburn.
