COMMUNITY WORKSHOP ON UNION BRIDGE SAFETY SCREENS

Member for Albury, Greg Aplin, has reminded the communities of Albury and Wodonga that a workshop is being held this week on safety screen designs for Union Bridge, on the old Hume Highway near Oddies Creek Park.

“RMS has prepared preliminary designs of the safety screens which aim to stop people jumping from the bridge and improve safety for motorists,” Mr Aplin said.

“It is important to consult with key stakeholders and the community to ensure we identify any visual impacts on the Murray River area as a gateway to entering both NSW and Victoria.

The community is invited to a workshop on Wednesday 30 May from 6pm to 8pm at Albury City Council. Light refreshments will be available.

To register attendance at the workshop and receive venue details please contact the Project Manager Matthew Burns on 131 782 or 6938 1111 or email Wagga_Wagga_Regional_Office@rtaph.nsw.gov.au

The screens are expected to be installed by the end of 2012.
