MEDIA RELEASE

COMPLETION OF $2.3 MILLION MAINTENANCE ON THE F3 FREEWAY

Roads and Maritime Services (RMS) has completed major work on the F3 Freeway between Mt White and the Calga interchange.

Member for Gosford, Chris Holstein, said the NSW Government provided $2.3 million to resurface 1.7 kilometres of the freeway as part of routine maintenance.

“The work will reduce ongoing maintenance costs for this section of the freeway,” Mr Holstein said.

“This project will also improve road safety and provide a smoother, quieter road surface for all motorists.

“Some minor line marking will be carried out in the next week,” Mr Holstein said.
