ROAD UPGRADES COMPLETED ON CROOKWELL ROAD

Member for Goulburn, Pru Goward, today announced work has been completed on two key projects on Crookwell Road.

"Roads and Maritime Services (RMS) has resurfaced about 900 metres of road 1.7 kilometres south west of Crookwell wind farm to improve road safety and provide a smoother road surface," Ms Goward said.

"The $450,000 project funded by the NSW Government also aims to extend the life of the road and reduce future maintenance costs.

"Work has also been completed to replace crash barriers on Goulburn to Crookwell Road at various locations between Woodhouselee Road and Marsden Bridge.

"The $130,000 project aims to improve safety on this section of road by preventing run off the road crashes.

"The work will make Crookwell Road safer for motorists and provide better driving conditions.

"The projects are part of the NSW Government's commitment to improving roads in the Goulburn area," Ms Goward said
