UPGRADE TO START ON CAMDEN VALLEY WAY AT CASULA

The Hon. Charlie Lynn Duty MLC for Macquarie Fields today announced work will start this Friday to extend the right turn lanes from Camden Valley Way into Campbelltown Road at Casula.

"The work is part of this year’s $17.5 million Pinch Point program which aims to reduce delays, manage congestion, improve safety and maintain consistent travel times for road users," Mr Lynn said.

"The $600,000 project funded by the NSW Government will extend the city bound right turn lanes on Camden Valley Way by about 50 metres improving safety for motorists at this busy intersection.

"The work aims to reduce the potential for rear end crashes and improve conditions for through traffic by providing more room for traffic turning right at the intersection.

"The work will include removing part of the raised median, building a new median, road resurfacing, line marking and the relocation of signs.

"Work will be carried out from Sunday to Friday between 7pm and 5am, on weekdays from 7am to 6pm and Saturday from 8am to 1pm.

"A reduced roadwork speed limit will be enforced through the work site and motorists can expect minor delays.

"Every effort will be made to minimise noise associated with the work.

"Work will take about two months to complete, weather permitting," Mr Lynn said.
