RESURFACING COMPLETED ON THE
NEW ENGLAND HIGHWAY AT SINGLETON

George Souris, MP Member for Upper Hunter announced the Roads and Traffic Authority will this week complete work to resurface a section of the New England Highway at Singleton, weather permitting.

Mr. Souris said the RTA provided $750,000 to rebuild this section of the New England Highway.

“Work was carried out on the 400 metre section of the highway from Kelso Street to the Council Information Centre,” Mr. Souris said.

“This work will provide a smoother, more durable road surface and will reduce ongoing maintenance costs.

“This project is part of the NSW Government’s commitment to upgrading roads in the Hunter region,” Mr. Souris said.

The RTA appreciates the patience of motorists and thanks them for their co-operation while this essential work was carried out. Mr. Souris concluded.
