NEWELL HIGHWAY WIDENING WORK COMPLETE NEAR TICHBORNE

The Member for Dubbo Troy Grant today announced that work to widen the Newell Highway near Tichborne, south of Parkes, has been completed.

Mr Grant said the $1.3 million NSW Government project provided sealed shoulders and wider lanes for a stretch of about three kilometer length.

“Work began at the end of May after the section of the Newell Highway was identified by the RTA as needing improvement," Mr Grant said.

“The highway is now open to traffic. Permanent line marking will be completed in coming weeks.

“These improvements will create a safer environment for vehicles travelling on the Newell Highway,” Mr Grant said.
