

Roads and bridges approved for access by combinations operating under the NSW Livestock Loading Scheme

This document is **UNCONTROLLED** when downloaded or printed. This version supersedes all previously published versions.

Approved roads already mapped can be accessed at the following link:
<http://www.rms.nsw.gov.au/business-industry/heavy-vehicles/maps/livestock/map/index.html>

Since the last Livestock Loading Scheme map publication the roads and bridges listed in this document have been assessed and found suitable for access by the combinations stated under the 'Vehicle Type' column.

For enquiries about information contained in this document please contact: Freight@transport.nsw.gov.au

The following conditions apply in addition to the conditions of the NSW Livestock Loading Scheme as listed in the NSW Class 3 Livestock Transportation Exemption Notice 2020

Conditions applicable to all listed roads and bridges approved for access by combinations operating under the NSW Livestock Loading Scheme east of the Newell Highway:

- Type 1 A-double road trains must be fitted with a tri-axle dolly, have a minimum extreme axle spacing of at least 26.5m and not exceed GML axle mass on the tri-axle dolly.

Modular B-Triples are able to operate in the NSWLLS on the GML B-triple network and must comply with the conditions of the NSWLLS.

Modular B-triples are also able to operate in the NSWLLS on the restricted access vehicle network for Modular B-Triples
