B. The parties have agreed the following Contract Outcomes to support RTA’s vision:

C. This Contract sets out the terms upon which the Contractor will perform the Services to achieve the Contract Outcomes.

OPERATIVE PROVISIONS

PART A CONTRACT FRAMEWORK

1. CONTRACTOR’S OBLIGATIONS

1.1 Scope

The Services the Contractor must perform are set out generally in RTA QA Specification M1 PSMC and RTA QA Specification M2 PSMC.

1.2 Asset treatment requirements

The Contractor’s obligations with respect to the treatment of Assets are set out in the following documents:
the Tendered Annual Treatment Program, which defines the minimum extent and intensity of work required in each Contract Year;

(b) the Annual Treatment Program, developed by the Contractor each Contract Year to:
   (i) deliver the extent and intensity of work required under the Tendered Annual Treatment Program; and
   (ii) meet the Pavement Performance Measures;

(c) RTA QA Specification M100, which sets out the design principles and requirements for work on pavement Assets;

(d) the Maintenance Intervention Requirements, which deal with Routine Maintenance on the PSMC Network and which define the Contractor's obligation to rectify Defects in the Assets based on:
   (i) the maximum allowable severity of the Defect;
   (ii) the maximum allowable response time; or
   (iii) the frequency at which the Defect is to be rectified; and

(e) the Maintenance Rectification Requirements, which define:
   (i) the standard to which the Contractor must rectify Defects in the Assets; and
   (ii) the work necessary to achieve the required standard of Defect rectification.

1.3 Measurement of performance

The Contractor's performance of the Services will be measured by the following Performance Criteria:

(a) the Management Performance Measures, which monitor the inspection, planning, management and implementation aspects of the Contract. The Management Performance Measures relate to management and reporting systems such as quality, occupational health and safety, environmental, community consultation, data gathering and reporting;

(b) the Pavement Performance Measures, which are long term measures that relate to the overall condition of the PSMC Network pavement Assets, including pavement roughness, pavement remaining life and pavement cracking. These will drive the Contractor's maintenance and rehabilitation program; and

(c) the Operational Performance Measures, which are short term measures and apply to the daily serviceability of the Assets and include the required conditions for pavements and road furniture to ensure safe and efficient movement of traffic and user comfort.

whichever is the later, assess any claim referred to in paragraph (a)(i) in accordance with the requirements of the Contract (including, where relevant in accordance with clause 16) and determine the amount (if any) RTA will pay to the Contractor.

(d) Following completion of the procedures set out in paragraph (c), any further claim under the Contract by the Contractor in relation to the relevant Contract Year will be time barred and the Contractor will not be entitled to make any such claim against RTA.

If RTA exercises its rights under clause 33.2, the Contractor’s obligations under the Contract are suspended to the extent and for such period as the Contractor is prevented from performing such obligations by RTA exercising its step-in right.

33.4 Contractor must assist RTA

If RTA exercises its step-in rights under clause 33.2, the Contractor must assist RTA to ensure RTA is able to exercise its step-in rights effectively and expeditiously, including giving RTA or its nominees access to the Contractor’s Plant and/or other documents and materials produced by the Contractor.

33.5 Step-in rights cease

(a) If RTA exercises its step-in rights, RTA may, after giving reasonable prior notice to the Contractor, cease to exercise those rights.

34.2 Termination for Contractor's Insolvency

In the case of Contractor's Insolvency, RTA may give the Contractor a notice terminating its employment under the Contract.

34.3 Consequences of termination

If RTA terminates the Contractor's employment under this clause 34, it may at its sole discretion employ others to complete the Services and the following will then apply:

(b) The Contractor must assign to RTA the Contractor's rights and benefits in all its contracts concerning the Services, warranties and performance bonds, bank guarantees, insurance bonds, other security of a similar nature or purpose and retention held by the Contractor under these contracts, with effect from the date of termination of its employment under the Contract.

(c) The Contractor must consent to a novation to RTA or its nominees of all Subcontracts and its other contracts concerning the Services, as required by RTA and must procure at the time of entering into each Subcontract and other contracts, the consent in writing of all of its Subcontractors, suppliers and consultants to the novation. RTA may at any time make payments and may deduct, withhold or set off any amount to be paid under the novated contracts from amounts otherwise payable to the Contractor or from any security given on the Contractor's behalf.

(d) The Contractor must do everything and sign all documents necessary to give effect to this clause 34, and it irrevocably appoints RTA as its attorney to do this in its name if it fails to do so.

(e) If the cost of appointing others to complete the Services exceeds the amount that would have been paid to the Contractor to complete the Services, then the difference will be a debt due by the Contractor to RTA.

(f) RTA may make provisional assessments of the amounts payable to RTA under paragraph (e) and may demand them under the Security.

WARNING

• Any subcontractor, who knowingly provides a principal contractor with a written statement that is false, is guilty of an offence (Maximum penalty 100 units or $11,000).

• Any written statement will not relieve the principal contractor of liability if, at the time the written statement was provided, the principal contractor believed the written statement to be false.

• The principal contractor must retain a copy of any written statement for a period of not less than five years (Pay-roll tax), six years (Remuneration) or seven years (Workers compensation).

• This statement must be accompanied by the relevant Certificate of Currency to comply with section 175B of the Workers Compensation Act 1987.
NOTES

1. This form is prepared for the purpose of section 175B of the Workers Compensation Act 1987, Schedule 2, Part 5, ss 17-20 Payroll Tax Act 2007 (NSW) and section 127 of the Industrial Relations Act 1996. If this form is completed in accordance with these provisions, a principal contractor is relieved of liability for workers compensation premiums, pay-roll tax and remuneration payable by the subcontractor.

2. For the purpose of this statement, a principal contractor is a person (or other legal entity), who has entered into a contract with another person (or other legal entity), referred to as the subcontractor, and employees/workers of that subcontractor will perform the work under contract. The work must be connected to the business undertaking of the principal.

3. In order to meet the requirements of s127 Industrial Relations Act 1996 (NSW), a statement in relation to remuneration must state the period to which the statement relates.

   Section 127(6) Industrial Relations Act 1996 (NSW) defines remuneration as ‘remuneration or other amounts payable to relevant employees by legislation, or under an industrial instrument, in connection with work done by the employees.’

   Section 127(11) of the Industrial Relations Act 1996 (NSW) states ‘to avoid doubt, this section extends to a principal contractor who is the owner or occupier of a building for the carrying out of work in connection with the building so long as the building is owned or occupied by the principal contractor in connection with a business undertaking of the principal contractor.’

4. Payment claim details – Where a subcontractor has entered into a payment schedule with a principal contractor they must identify the period or payment to which the statement applies.

5. An accurate description of the work covered by the contract must be included.

6. In completing the statement, a subcontractor declares that they are a sole trader or partnership without workers or subcontractors and is not required to hold workers compensation insurance.

7. In completing the statement, a subcontractor declares that workers compensation premiums payable up to and including the date(s) on the statement have been paid, and all premiums owing during the term of the contract will be paid.

8. It is important to note that a business could be both a subcontractor and a principal contractor, if a business ‘in turn’ engages subcontractors to carry out work. If your business falls within this category you should also obtain statements from your subcontractors.

9. In completing the statement, a subcontractor declares that all pay-roll tax payable relating to work undertaken as part of the contract has been paid.
10. In completing the statement, a subcontractor declares that all remuneration payable has been paid.

It is noted that definitions of employer, employee, remuneration, and specific provisions for employers of outworkers in the clothing trades are as defined in s127A of the Industrial Relations Act 1996 (NSW).

11. Failure to complete this statement may result in the principal contractor withholding any payment due to the subcontractor. Any penalty for late payment under the contract does not apply to any payment withheld under this subsection. Subcontractors may wish to keep a copy of the statement for their own records.

Schedule 7

COST ADJUSTMENT FORMULA

1. Maintenance Fee — general
   1.1 The Maintenance Fee will be cost adjusted in accordance with this Schedule 7.
   1.2 In each payment claim, the Contractor will nominate the quantity of bitumen used during the period of the payment claim, and the component of the Maintenance Fee which constitutes the Contractor’s cost of supplying bitumen.
   1.3 The component so nominated will be adjusted using the cost adjustment formula in section 4 of this Schedule 7.
   1.4 The remaining component of the Maintenance Fee will be adjusted using the cost adjustment formula in section 3 of this Schedule 7.
   1.5 RTA may determine an adjustment to the Maintenance Fee under clause 9 of the General Conditions to take into account a Change. In these circumstances, RTA will:
      (a) determine the value of the adjustment, in accordance with clause 9.3(b) and 9.3(c) of the General Conditions;
      (b) determine the value of the adjustment which if, applied in the month in which the Contractor submitted its tender, would (after application of the costs adjustments under sections 2 and 3) result in the Contractor’s entitlement equalling the value determined under clause 9.3;
      (c) adjust the Maintenance Fee under clause 9.3(d) by the amount calculated under paragraph (b) above. The purpose of this is to ensure that the Contractor is not overly compensated or penalised for a Change by the cost adjustment process.

2. Method of cost adjustment
   2.1 The method of adjustment of the Maintenance Fee is as follows (in the order set out below):
      (a) on the last day of each month of the Contract Term, multiply the relevant component of the Maintenance Fee by the costs adjustment factor in section 3 or 4;
      (b) if the net costs adjustment factor is positive, add the result to the relevant component of the Maintenance Fee or the monetary cap; and
      (c) if the net costs adjustment factor is negative, subtract the result from the relevant component of the Maintenance Fee or the monetary cap.

3. Costs adjustment formula
   3.1 The costs adjustment factor is determined by the following formula:

   \[ C = r \left( \frac{Rn}{Ro} \times \frac{Xn - Xo}{100 + Xo} + \frac{Rn}{Ro} \times \frac{Yn - Yo}{100 + Yo} \right) + \left( \frac{Rn - Ro}{Ro} \right) \]

   Where

   \[ C = \text{costs adjustment factor} \]
r = 0.4
Rn = road and bridge construction index number, which is the Division E Construction, Road and Bridge Construction index as published by the Australian Bureau of Statistics (Reference No. 4121) applicable to the calendar month during the Contract Term immediately preceding the last calendar month in which the work the subject of the relevant Payment Claim was carried out.
Ro = road and bridge construction index number, which is the Division E Construction, Road and Bridge Construction index as published by the Australian Bureau of Statistics (Reference No. 4121) applicable to the calendar month preceding the calendar month in which the Contractor submitted its tender.
Xn = current payroll tax rate, which is the rate per centum payable on wages under New South Wales legislation imposing payroll tax applicable to the calendar month immediately preceding the last calendar month in which the work the subject of the relevant Payment Claim was carried out.
Xo = base payroll tax rate, which is the rate per centum payable on wages under New South Wales legislation imposing payroll tax applicable as at the calendar month immediately preceding the calendar month in which the Contractor submitted its tender.
Yn = current worker's compensation premium rate, which is the most current rate shown in Table A Division E Subdivision 41 of the Worker's Compensation Act 1987 (NSW), Insurance Premiums Order for Road and Bridge Construction (Group 412 Class 412100) applicable as at the calendar month immediately preceding the last calendar month in which the work the subject of the relevant Payment Schedule was carried out.
Yo = Base Worker's Compensation Premium Rate, which is the rate shown in Table A Division E Subdivision 41 of the Worker's Compensation Act 1987 (NSW), Insurance Premiums Order for Road and Bridge Construction (Group 412 Class 412100) applicable on the first day of the calendar month immediately preceding the calendar month in which the Contractor submitted its tender.

NOTE: Rates published by Australian Bureau of Statistics are for quarterly periods and the rate for the calendar month will be the rate for the quarter containing that calendar month.

3.2 The index numbers referred to in this schedule as being published by the Australian Bureau of Statistics are the numbers as first published for a particular month by the Australian Bureau of Statistics. For the purposes of this schedule, those numbers are not subject to alteration following publication of revised, amended or corrected numbers.

3.3 If an index for cost adjustment used under clause 3.1 is:
   (a) discontinued, the parties must consult in good faith to determine a replacement index which reflects the intent of the discontinued index; or
   (b) revised, altered or amended, the parties must consult in good faith to determine:
       (i) the impact of the revision, alteration or amendment;
       (ii) whether a new index is required; and
       (iii) if a new index is required, the new index.

4. Cost adjustment for the supply of bitumen
4.1 The Maintenance Fee will be subject to adjustments for variations in the cost of bitumen purchased by the Contractor for the performance of the Services.
4.2 The formula in this clause 4 will apply to the component of the Maintenance Fee nominated by the Contractor in its Payment Claim.

4.3 Any cost adjustment under this section 4 will be calculated from the formula:

\[ D = (C - B) \times A \]

where:

\( A \) = the quantity of bitumen derived from –

1. The calculation of residual bitumen at 15 degrees Centigrade where the product is sprayed bituminous surfacing or a tack cost.

2. The approved design binder content where the product is asphalt.

3. The approved residual binder content where the product is a bituminous slurry surfacing.

\( B \) = the price of class 170 bitumen applicable on the last day of the month immediately preceding the month during which the tenders closed;

\( C \) = the price of class 170 bitumen on the last day of the month immediately preceding the month during which the work is performed; and

\( D \) = the applicable cost adjustment for this payment claim.

The price of class 170 bitumen will be the average of the prices for the suppliers contracted to supply the RTA on its panel contract for the Supply of Bitumen and Related Products.

5. Cost adjustment — monetary caps

5.1 Each monetary cap referred to in clauses 8.2, 8.4 and 8.5 of the General Conditions will be adjusted in accordance with this section 5.

5.2 The method of adjustment is as follows (in the order set out below):

(a) on the last day of each month of the Contract Term, multiply the monetary cap by the costs adjustment factor in section 3;

(b) if the net costs adjustment factor is positive, add the result to the monetary cap; and

(c) if the net costs adjustment factor is negative, subtract the result from the monetary cap.

PSMC- Work Terms

1. SCOPE OF WORK, TEMPORARY WORK AND WORK METHODS

1.1 The Works

The scope of the Works is described in the Work Order and this document (as applicable), and includes:

(a) all the work specifically referred to in or otherwise contemplated by the Work Order Documents;

(b) all items not specifically referred to or described in the Work Order Documents which nonetheless are required to complete the Works and achieve the effective and efficient use and operation of the Works;

(c) all items referred to in one or more of the Work Order Documents or otherwise necessary for the Works to be fit for the purposes required by the Work Order but omitted from other Work Order Documents (those omitted items are included in the scope of the Works, unless the context requires otherwise); and

(d) all items of work reasonably inferred from the Work Order Documents as necessary to properly execute and complete the Works.

1.2 Contractor Acknowledgement

The Contractor acknowledges that it has made full allowance in the Additional Services Fee for the matters referred to in clause 1.1.

1.3 Temporary Work

The Contractor must carry out and be responsible for all Temporary Work, carry out, perform, provide and do everything necessary including all ancillary or other work for or in connection with the Design and construction of the Works, subject to the following:

(a) RTA may Direct the Contractor at any time to use a particular method or type of Temporary Work and the Contractor must comply with RTA’s Direction;

(b) subject to paragraph (a), if RTA’s Direction directly causes the Contractor to incur necessarily and unavoidably any extra costs when compared with the costs the Contractor would have incurred had RTA not given the Direction, the Contractor may be entitled to those extra costs, and an extension of time under clause 6.1 (if applicable); and

(c) if the need for the instruction in paragraph (a) arises from the Contractor’s own act or omission, then the Contractor is not entitled to those extra costs or extensions of time.

1.4 Work methods

The Contractor is free to use any work method, subject to the following:

(a) The Contractor is solely responsible for all work methods, whether specified in the Contract or not.

(b) The Contractor warrants that it has undertaken all necessary investigation and inquiry to satisfy itself that all work methods specified in the Work Order or which
the Contractor otherwise proposes to use are appropriate for the purposes of the Work Terms.

(c) If a particular work method is specified in the Work Terms, the Contractor must use it.

(d) If a particular work method is specified in the Work Terms but it is not possible to use that method, the Contractor must use another method without entitlement to extra cost or an extension of time.

(e) If a particular work method for which the Contractor is responsible is impractical and the Contractor, with or without the Direction of RTA, uses another work method by necessity to complete the Works, the Contractor is not entitled to an extension of time or extra cost.

(f) RTA may Direct the Contractor at any time to use a particular work method.

(g) Subject to sub-paragraphs (d) and (e) above, if RTA’s Direction directly causes the Contractor to incur necessarily and unavoidably any extra costs when compared with the costs the Contractor would have incurred had RTA not given the Direction, the Contractor is entitled to those extra costs as an addition to the Additional Services Fee (if it demonstrates to the reasonable satisfaction of RTA that it incurred such extra costs) and may be entitled to an extension of time under clause 6.1 (if applicable).

1.5 Quality

(a) The Contractor must perform the Work under the Work Terms in accordance with all the requisite standards required under the Contract.

(b) The Contractor must, prior to commencing the Works, demonstrate to RTA’s reasonable satisfaction that the Contractor has in place an appropriate quality system for the Works (including any changes to the Quality Plan required for the particular Works).

2. TIME MANAGEMENT, WORKS PROGRAM, COMMUNITY CONSULTATION

2.1 Time management

(a) The Contractor must commence Design and construction of the Works on Site in accordance with the Works Program (or the contractual program as referred to in clause 2.2, as applicable,).

(b) The Contractor must carry out Design and construction of the Works in accordance with Scheduled Progress.

(c) Whenever requested, the Contractor must demonstrate to RTA that it is achieving Scheduled Progress.

(d) If the Contractor is not achieving Scheduled Progress, RTA may instruct the Contractor to take all reasonable steps to achieve Scheduled Progress, at the Contractor’s cost.

(e) The parties acknowledge that an instruction under paragraph (d) is not a Direction to accelerate.
2.2 Works Program

(a) The Contractor must submit to RTA a program which complies with clause 2.3 within 14 days of the date of the Work Order.

(b) Until the Contractor provides this program complying with clause 2.3, the program submitted by the Contractor in response to the Work Proposal will be the contractual program, if RTA so advises the Contractor in writing.

(c) RTA need not respond to the Contractor about the program submitted. If RTA raises no objection and the program submitted by the Contractor under this clause 2.2 complies with clause 2.3, it becomes the Works Program.

(d) If the program does not comply with clause 2.3, the Contractor must promptly and in any event within 10 Business Days of being notified by RTA of the non-compliance, submit to RTA a further program complying with the requirements for the Works Program in clause 2.3.

(e) The Contractor must update and resubmit the Works Program when directed by RTA acting reasonably, taking into account:

(i) actual progress;

(ii) any changed circumstances; and

(iii) the effects of delays and approved extensions of time.

2.3 Requirements of Works Program

The Works Program must comply with the following requirements:

(a) show the dates of, or, in the case of future activities and events, the dates for commencement and completion of Design and construction activities, other significant events, Milestones and the Works and also include Completion Dates;

(b) reflect Scheduled Progress and be consistent with all constraints on access, performance and co-ordination;

(c) show the logical relationship between activities and events shown in the program, identify time leads and lags, resource and other constraints and the sequence of activities which constitute the critical path or critical paths;

(d) show the dates when the Contractor will require information, documents, materials or instructions from RTA and the dates when the Contractor will provide information or documents to RTA. These dates are to be consistent with dates which RTA could reasonably have anticipated at the date of the Work Order that this information, documents, materials and instructions would be required and provided; and

(e) be in such form and include such detail as RTA reasonably requires and be accurate, comprehensive and complete in all respects.

2.4 Form and provision to RTA

(a) When requested by RTA, the Contractor must provide the Works Program in an electronic form to RTA. The electronic form of the Works Program must be accessible and clearly show the requirements listed in this clause 2.

(b) The software used by the Contractor to create the Works Program must be acceptable to RTA.
2.5 Extension of time and Works Program

(a) The Contractor will not be entitled to claim an extension of time under clause 6.1 or otherwise, until the Contractor has submitted to RTA a Works Program in conformance with clause 2.3, notwithstanding the references to the contractual program in clauses 2.1(a), 2.2(a) and 2.2(b).

(b) The Works Program submitted in respect of a Claim for an extension of time must be the Works Program current (as adjusted under clause 2.2(e)) at the time of the event or events giving rise to the Claim.

(c) All extension of time Claims must show how the Contractor has been or will be delayed in reaching Completion, by specific reference to an activity or activities on the then current (as adjusted under clause 2.2(e)) critical path or paths of the Works Program.

(d) Provision of the Works Program does not relieve the Contractor of any of its obligations under the Contract.

2.6 Working hours

Despite any other provision in the Work Terms, the Contractor must only perform Works during the working hours set out in Work Order Information item 13.

2.7 Community consultation

The Contractor must undertake all community consultation and/or advertising as set out in Work Order Information item 14.

3. INSURANCE

3.1 RTA's insurance

(a) RTA has effected an insurance policy or policies to cover RTA, the Contract and all Subcontractors employed from time to time in relation to the Works in accordance with clause 19.1 of the General Conditions.

(b) RTA may in its discretion have other insureds named or included in the policy or policies referred to in clause 3.1(a), including any other government entity with an interest in the Works or the Site.

(c) The policy or policies will be maintained by RTA until the issue of the Final Payment Schedule.

(d) Before the earlier of:

   (i) 10 Business Days after the Date of the Contract; or

   (ii) the Contractor commencing to carry out any part of the Works,

the Contractor must contact the insurance broker nominated in writing to the Contractor as RTA's insurance broker and must provide to that person all details reasonably requested for the purpose of the insurances referred to in clause 3.1.

(e) The Contractor acknowledges that extracts of the policy terms have been exhibited to the Contractor prior to the date of the Work Order and are attached as Schedule 2. Full copies of the policy terms are available for inspection by arrangement with RTA's insurance broker.
(f) The insurance cover under clause 3.1(a) is subject to exclusions. These are set out in the policy terms referred to in clause 3.1(e) and include Excepted Risks.

(g) The Contractor will be responsible for paying or bearing all excesses in relation to insured matters under any policy referred to in clause 3.1(a) in accordance with the policy terms. The Contractor may effect its own insurance to cover the amount of any excess.

(h) The Contractor acknowledges that:
   (i) the insurances referred to in clause 3.1(a) have been obtained at RTA's cost; and
   (ii) the Contractor will not be entitled to payment of any allowance for the cost of obtaining such insurances or any additional insurance cover it considers necessary in relation to the subject matter of that insurance.

(i) The obtaining of insurance by RTA in accordance with this clause will not reduce, vary, or otherwise affect the Contractor's liabilities and obligations pursuant to clause 19 of the General Conditions, warranties given or otherwise under the Contract or in connection with the Works.

(j) If there is a claim for significant damage or destruction under the Works policy of insurance (as determined by RTA, acting reasonably):
   (i) all settlement amounts must be paid by the insurer directly to RTA;
   (ii) RTA may decide to have the Works reinstated, or may decide not to proceed with the Works, without creating any default by RTA under the Contract; and
   (iii) the Contractor must reinstate the Works if instructed to by RTA and except as otherwise provided in the Contract may only make a Claim for payment for reinstatement of the Works up to the amount of any insurance settlement.

3.2 Additional insurance

The Contractor must effect such other insurance as required by RTA and specified in Work Order Information item 15.

4. DESIGN

4.1 Ambiguities

(a) The Contractor, in addition to any responsibility to check RTA's Documents under clause 4.3 (if applicable), must check the Work Order Documents and notify RTA of any ambiguities, inconsistencies or discrepancies at least 15 Business Days before the Contractor proposes to use them for Design or construction (including procurement, manufacture or fabrication of any part of the Works) or for other purposes under the Work Terms.

(b) RTA must resolve any ambiguities, inconsistencies or discrepancies in the Work Order Documents which are notified by the Contractor to RTA for resolution.

(c) Subject to paragraph (d), if the resolution in paragraph (b) results in the Contractor incurring increased or reduced costs than the Contractor should reasonably have anticipated at the date of the Work Order, the Additional Services Fee must be
adjusted by the difference in costs agreed or valued under the procedures in clause 9 of the General Conditions. In the assessment of what the Contractor should reasonably have anticipated (as referred to above) regard must be had to the provisions of the Work Terms, in particular clause 1, and to whether the ambiguity, inconsistency or discrepancy was (or should have been) reasonably apparent to the Contractor at the date of the Work Order.

(d) If the Contractor fails to take the steps required in paragraph (a), and a Change is instructed by RTA due to any ambiguity, inconsistency or discrepancy:

(i) the Contractor will not be entitled to costs for delay or the cost of any aborted work (including Design) resulting from the Change under the Contract; except that

(ii) if clause 4.3 is not applicable, the Contractor will be entitled to the reasonable and unavoidable cost of any aborted work (including Design) if the ambiguity, inconsistency or discrepancy is included in RTA’s Documents forming part of the Work Order Documents.

4.2 Contractor’s documents

(a) The Contractor must carry out all necessary design to complete Design of the Works (whether or not it is responsible under clause 4.3(a) for RTA’s design in RTA’s Documents) and so produce Contractor’s Documents which meet the requirements of all of the following:

(i) the Work Terms and General Conditions;

(ii) RTA Directions;

(iii) Law;

(iv) the Building Code of Australia (if applicable in Work Order Information item 9), and relevant Australian Standards; and

(v) good industry standards applicable to the Works.

(b) The Contractor acknowledges that the Contractor must not change RTA’s design in RTA’s Documents without RTA’s prior written approval. Whenever requested by RTA, the Contractor must promptly confirm in writing that Contractor’s Documents are consistent with and comply with RTA’s Documents and other relevant Contract Documents. If RTA’s design is required to be changed (with RTA’s prior written approval), the Change must be dealt with under the procedures in clause 9 of the General Conditions.

(c) The Contractor must produce Contractor’s Documents which will ensure that the Works and every part of them are fit for the purposes required by the Contract. This responsibility is reduced to the extent that the Contractor’s Documents are not fit because of design work by RTA for which RTA retains responsibility.

(d) The requirements of paragraph (c) are not reduced or affected by any Changes.

4.3 Adopting RTA’s Documents

(a) If Work Order Information item 10 specifies that the Contractor must accept full responsibility for design carried out by RTA before the date of the Work Order, then before submitting Contractor’s Documents to RTA in accordance with clause 4.4 the Contractor (at its own cost) must:
(i) check, and notify RTA of details (together with appropriate supporting documents) of any Fault in RTA’s Documents;

(ii) amend the documents to correct the Faults so that, on Completion, the Works and every part will be fit for the purposes required by the Contract; and

(iii) accept and adopt RTA’s Documents as if the Contractor prepared them so that they (amended by the Contractor as necessary) become Contractor’s Documents when submitted under clause 4.4.

(b) Subject to any provisions of the Contract which provide for change to RTA’s Documents and clause 4.1, RTA must instruct a Change if the Contractor notifies RTA of a Fault in RTA’s Documents and RTA requires a change to the Works as a result.

(c) If RTA’s Documents adopted by the Contractor contain a Fault not notified to RTA by the Contractor in accordance with clause 4.3(a):

(i) the Contractor will be responsible for, and not entitled to payment for delays or the cost of any aborted work arising out of the Fault; and

(ii) the value of any Change RTA instructs as a result of the Fault must not include the cost of such delays or aborted work.

(d) The Contractor acknowledges that:

(i) RTA’s design is incomplete and may contain Faults or conflict with Law or the Building Code of Australia (if applicable in Work Order Information item 9) or other codes or standards which the Contractor is required to comply with under the Contract;

(ii) RTA makes no representation concerning RTA’s design and the Contractor is not entitled to rely on the completeness or accuracy of RTA’s design; and

(iii) RTA relies on the Contractor to identify and remedy Faults in RTA’s Documents.

4.4 Submitting Contractor’s Documents

(a) The Contractor must submit Contractor’s Documents (as developed progressively and in stages, but so that each part is complete and in sufficient detail to explain what is proposed) to RTA at least 14 Business Days before the date the Contractor proposes to use them for construction (including procurement, manufacture or fabrication) of any part of the Works. The Contractor must provide the number of copies of the Contractor’s Documents specified in Work Order Information item 7 when submitting Contractor’s Documents.

(b) To the extent specified in the Contract, the Contractor must undertake design review and consider the Design with those persons specified in the Work Order Documents, or those persons identified by RTA, including those involved in using or occupying any part of the Works as end users. The Contractor must carry out such design review and consideration with RTA and those other persons, and develop the Design and Contractor’s Documents using the outcomes of this review and consideration. The Contractor must then submit to RTA for its consideration any necessary amendments to RTA’s Documents proposed by the Contractor, including those arising out of the design review and consideration, prior to the Contractor submitting Contractor’s Documents, as referred to in paragraph (a).
(c) RTA need not respond to the Contractor about the Contractor’s Documents submitted.

(d) If RTA objects to the Contractor’s Documents, the Contractor must take the objections into account and discuss them with RTA. The Contractor must correct any Fault in the Contractor’s Documents.

5. CONSTRUCTION

5.1 Setting out the Works

(a) The Contractor must set out and construct the Works at the locations and levels specified in or required by the Work Order Documents.

(b) The Contractor may request in writing from RTA any necessary additional information to be provided by RTA relating to setting out the Works not included in the Work Order Documents. (d) The Contractor must give RTA a copy of a survey showing the Works as constructed on the Site, including the relationship of the Works to any relevant property boundaries, easements, (including any right of way) and improvements on the Site.

(c) The provisions of paragraph (b) are not reduced or affected by any Changes.

5.3 Testing

(a) The Contractor must:

(i) Test (at its own cost) all parts of the Works specified in the Contract to be Tested;

(ii) give RTA the opportunity to witness the Tests by giving reasonable notice; and

(iii) make the results available to RTA.

(b) RTA may instruct the Contractor at any time to Test any part of the Works. RTA must pay for the Tests (as an addition to the Additional Services Fee) if the results of the Tests show full compliance with the Contract. Otherwise, the Contractor must pay.

(c) The Contractor must repeat the Tests (at its own cost) of all parts of the Works where Defects have been found, until the results of these Tests, as reported in writing to RTA, confirm that all Defects have been made good and that the Works comply with the Contract.

5.4 Defects

(a) The Contractor must identify and promptly make good all Defects so that the Works comply with the Contract. This requirement does not affect any other remedy or right of RTA.

(b) At any time before Completion, RTA may instruct the Contractor to make good Defects within the time specified in a Defect Notice issued by RTA.

(c) If the Contractor fails to make good the Defects in the time specified in the Defect Notice, RTA may have the Defects made good by others and then:
(i) the cost will be a debt due to RTA and may be deducted from the Maintenance Fee or the Additional Services Fee, unless a Change applies under paragraph (e); and

(ii) the Contractor will be responsible for the work involved in making good the Defects as if the Contractor had performed the work.

(d) Nothing in this clause 5.4:

(i) reduces the Contractor’s warranties and other liabilities and obligations under the Contract; or

(ii) affects RTA’s common law right of damages.

(e) If at any time before Completion the Contractor becomes aware of any defect which results from design or other work or actions for which it is not responsible, it must:

(b) Before RTA does so:

(i) RTA may propose deductions from the Maintenance Fee or the Additional Services Fee, and any terms it requires;

(ii) if the Contractor agrees with the deductions and the terms, the Maintenance Fee or Additional Services Fee will be adjusted accordingly; or

(iii) if the Contractor agrees with the terms but not with the proposed deductions, clauses 9.3(b), 9.3(c) and 9.3(d) of the General Conditions will apply.

(c) If the parties do not agree in writing on RTA’s terms, the Contractor must make good the Defects defined by RTA.

(d) The Contractor remains liable for Defects whether known or not known at the time RTA accepts that Defects defined by RTA in paragraph (c) above need not be made good under this clause 5.5.

6. EXTENSIONS OF TIME AND DELAY

6.1 Extensions of time

(a) If the Contractor is, or will be delayed in reaching Completion, the Contractor will be entitled to an extension of time for Completion for the number of days assessed by RTA, if the Contractor satisfies RTA that all the following conditions apply:
(i) subject to paragraph (ii), the cause of the delay was not an event or circumstance for which the Contractor accepts the risk of delay under the General Conditions or the Specifications;

(c) Within 10 Business Days of commencement of the delay, the Contractor must give RTA notice of the extension of time claimed, together with the information required under clause 2.5(c) and other information sufficient for RTA to assess the Claim. If the delay continues for more than 10 Business Days, the Contractor must give a further notice every 10 Business Days thereafter, until after the delay ends, if the Contractor wishes to claim a further extension of time, together with further information of the kind required by this clause 6.1.

(d) An extension of time is only given for delays occurring on days on which the Contractor usually carries out work under the Work Order.

(e) When concurrent events cause a delay in reaching Completion and one or more of the events is within the control of the Contractor, then to the extent that the events are concurrent, the Contractor will not be entitled to an extension of time for Completion notwithstanding that another cause of the delay is such that the Contractor would have had an entitlement to an extension of time.

(f) RTA may in its absolute discretion for the benefit of RTA extend the time for Completion at any time and for any reason, whether or not the Contractor has Claimed an extension of time. The Contractor is not entitled to an extension of time for Completion under this paragraph (f) unless RTA exercises its discretion to extend the time for Completion.

6.2 Delays caused by RTA

(a) The Contractor acknowledges and agrees that there may be acts or omissions of RTA or a breach of the Contract by RTA which may cause the Contractor delay, disruption or interference to the carrying out of the Works.

(b) The Contractor must resume carrying out the Works and Temporary Work when instructed to by RTA.

(c) If the need for the suspension arises from RTA’s own act or omission, then the Contractor will be entitled to:

(i) any extension of time granted under clause 6.1; and

(ii) (as an addition to the Additional Services Fee) its reasonable, direct Site and off-Site costs of the suspension, unavoidably incurred, having taken all reasonable steps to minimise the costs.

(d) The Contractor has no other remedies in connection with the suspension.

8.2 Schedules of Rates

(a) At the date of the Work Order, quantities in a Schedule of Rates are estimated only, and RTA does not guarantee either the estimated quantities or the descriptions of the items.

(b) If Work Order Information item 11 indicates that a Schedule of Rates applies, the Additional Services Fee is the sum of the products of the quantities and the relevant rate for each item in the Schedule of Rates, plus all lump sums (if any). Before an item is completed, the estimated quantity will be used in the calculation of the Additional Services Fee. After an item is completed, the actual quantity measured in accordance with the Contract will be used in the calculation of the Additional Services Fee.

(c) The Contractor is entitled to payment of the Additional Services Fee calculated for actual quantities measured in accordance with the Work Terms.

8.3 Provisional Quantities

If RTA instructs the Contractor to carry out work which is the subject of a Provisional Quantity and that instruction requires the Contractor to carry out a greater or lesser quantity of work than the Provisional Quantity, including that no work the subject of the Provisional Quantity will be carried out, the Additional Services Fee must be adjusted by the amount calculated by multiplying the work order rate applicable to the Provisional Quantity work by the difference between the Provisional Quantity and the quantity of work carried out.

(b) If Work Order Information item 12 specifies payment by Milestone Payment, then the Contractor may only make a Payment Claim under clause 16.4 of the General Conditions for the value of a Milestone on its Completion. If Work Order Information item 12 specifies payment by Milestone Payment and monthly Progress Payment, then the Contractor must make a Payment Claim in accordance with this paragraph (b) for Milestone Payments and paragraph (a) otherwise.

(c) The Contractor must submit Payment Claims under clause 16.4 of the General Conditions in the form of Schedule 1 (Payment Claim Worksheet), or in such other form to which RTA agrees.

(e) The Contractor warrants for itself and for and on behalf of Subcontractors and Suppliers that no Encumbrance exists over any Materials incorporated into the Works by the Contractor. If the Contract or the Contractor’s employment under the Work Terms is terminated by RTA, the Contractor must ensure that RTA, in respect of any unfixed Materials for which payment has been made or which have been appropriated to the Contract, may enter upon any premises where the Materials are stored and take possession of these Materials.
(f) For work carried out and allowed in each Payment Claim, the following applies in calculating the Value Completed:

(i) For completed work covered by a lump sum:

(A) The Contractor may claim a lump sum by instalments with each Payment Claim under clause 16.4 of the General Conditions calculated in accordance with Schedule 1. The total of the lump sum instalments must never exceed the total of the lump sum.

(B) The subtotal of “Value Completed $” amounts is recorded.

(ii) For work covered by a Schedule of Rates:

(a) The Contractor must submit a Final Payment Claim under clause 16.4 of the General Conditions within 13 weeks after achieving Completion of the whole of the Works. The Final Payment Claim must include any Claim not previously claimed in a Payment Claim, and which is then permitted under clause 8.5, being a Claim agreed to by RTA or if not agreed, having been determined in accordance with the General Conditions.

(b) Within 10 Business Days of receiving the Final Payment Claim (or, if the Contractor has not submitted a Final Payment Claim, within 15 weeks after achieving Completion of the whole of the Works), RTA must give the Contractor a Final Payment Schedule stating the amount payable by one party to the other and where the Contractor has submitted a Final Payment Claim, complying with the relevant provisions of clause 16.4 of the General Conditions.

(c) Any payments by the Contractor to RTA in accordance with the Final Payment Schedule must be made within a further 10 Business Days after it is issued.

(d) Any other Claim not previously brought which the Contractor is then entitled under the Contract to bring must be made (separate from the Final Payment Claim) within 13 weeks after achieving Completion of the whole of the Works. Otherwise it is barred. If RTA agrees to a Claim involving money under this clause 8.6(d), RTA will make payment within 20 Business Days of such agreement or of it being determined in accordance with the Contract.

(e) The issue of the Final Payment Schedule is conclusive evidence that all necessary increases to the Additional Services Fee or to any other entitlement of the Contractor have been made, except for those required by:

(i) arithmetical error; or
(ii) valuation of Change in accordance with clause 9 of the General Conditions, relating to a Claim made in accordance with paragraph (d) above; and

(iii) resolution under clauses 29 to 31 of the General Conditions (as applicable) of any Claim made in accordance with paragraph (d).

(ii) RTA becomes responsible for any additional insurance required.

(b) If RTA requires to use or occupy any part or the whole of the Works before the Contractor achieves Completion, as provided in paragraph (a) above, RTA must give not less than 15 Business Days’ notice in writing to the Contractor that RTA will be using or occupying a part or parts, or the whole of the Works and must specify those parts, or that the whole of the Works is, to be so used or occupied.

(c) The Contractor must do everything necessary to provide to RTA promptly, but in any event no later than 15 Business Days after receipt of the notice in paragraph (b) above, all documents and other things relevant to the parts to be used or occupied as are listed in the second paragraph of the definition of Completion, and to otherwise provide full assistance and cooperation to RTA (and anyone authorised by RTA) in the use and occupation of the Works.

(b) This clause 9.3 does not reduce the Contractor’s liability, whether arising under the Contract or otherwise. The Contractor’s liability continues until any limitation period under statute expires.

(c) This clause 9.3 does not affect RTA’s rights under clause 5.5.

RTA may at any time make payments and may deduct, withhold or set off any amount to be paid under the novated contracts from amounts otherwise payable to the Contractor or from any Security.

(d) The Contractor must do everything and sign all documents necessary to give effect to this clause, and it irrevocably appoints RTA as its attorney to do this in its name if it fails to do so.
(e) If, the cost of appointing others to complete the Works exceeds the amount that would have been paid to the Contractor to complete the Works, then the difference will be a debt due by the Contractor to RTA.

(f) RTA may make provisional assessments of the amounts payable to RTA under paragraph (e) and may demand them under the Security given by the Contractor to RTA under the Contract.

11. TERMINATION BY RTA FOR CONVENIENCE

(iii) the reasonable, direct costs of removal of any Temporary Works and other things from the Site incurred by the Contractor, but only if the Contractor complies with a strict duty to mitigate costs;

(iv) an amount of 2% of the unpaid portion (after taking into account the amount payable under paragraph (a)(i)) of the Additional Services Fee; and

(v) costs reasonably incurred by the Contractor in the expectation of completing the Works and not included in any other payment by RTA.

   (i) expiration of the Construction Period and Defects Liability Period; or
   
   (ii) the Named Insured formally advises the Insurers that the Contracts have been insured elsewhere;
   
   whichever occurs first.

   In the event of cancellation or non-renewal of this Policy, the Premium will be adjusted or pro-rata for the period on risk if the outcome does not represent an equitable refund for the cancelled period. The Named Insured will be obliged to supply to the Insurers such information as is necessary to adjust the Premium.

14. **Alterations in Material Fact/Error or Omission**
   
   (a) The Insured will not be prejudiced under this Policy in the event of any alteration in material fact or otherwise regarding construction methods or procedures, an unintentional or inadvertent error, omission or misdescription or any other information contained or omitted from any underwriting information supplied to the Insurers.

   (b) The Named Insured undertakes to immediately notify the Insurers as soon as the alteration or omission becomes known to them, and the Insurers shall be entitled to make reasonable variations to this Policy’s terms and Conditions as may be mutually agreed between the Insurers and the Insured.

15. **Progress Payments (applicable to Section 1 only)**
   
   Provided that indemnity has been granted under this Policy, progress payments on account of any claim under Section 1 only shall be made to the Insured, at such intervals and for such amounts as may be agreed upon production of an acceptable report by the Agreed Loss Adjuster (if appointed), provided such payments shall be deducted from the amount finally determined upon adjustment of the claim.

16. **Engagement of Loss Adjusters**
   
   (a) Aon is authorised to appoint a loss adjuster from the panel of Agreed Loss Adjusters to investigate and quantify losses that are potentially identifiable under this Policy. Loss adjuster fees and expenses shall be payable by the Insurers.

19. **Difference in Conditions Cover**  
In circumstances where an Underlying Insurance has been arranged, this Policy shall be deemed to be the ‘Master Policy’.  
   (a) In the event of the Insured being indemnified by an Underlying Insurance in respect of a claim for which indemnity is available under this Master Policy, the insurance afforded by this Policy shall be excess insurance over the applicable limit of indemnity of the Underlying Insurance.  
   (b) Coverage under this Master Policy shall not apply unless and until a claim for payment is made under the Underlying Insurance up to the amount of the Underlying Limit which, save for the limit of indemnity of the Underlying Insurance, would be covered by this Master Policy.  
   (c) If such Underlying Insurance provides indemnity to the Insured by virtue of its scope of cover, definitions or conditions in respect of loss, damage, legal liability, costs and expenses which are not provided under the terms, Conditions and Exceptions of this Master Policy, then this Master Policy shall provide such indemnity to the same extent as provided by the Underlying Insurance.  
   (d) Should any such Underlying Insurance, by virtue of its scope of cover, definitions, deductibles or excesses, conditions or limits of indemnity, not indemnify the Insured in whole or in part in respect of a loss, damage, liability, costs or expenses indemnifiable under this Master Policy, this Master Policy will provide indemnity to the extent that such indemnity is not provided by the terms and conditions of such Underlying Insurance. For the purpose of clarity, it is intended that indemnity by this Policy extends to cover losses not covered under the Underlying Insurance by virtue of the fact that such Underlying Insurance has a higher deductible or excess than the Excess under this Master Policy.  
   (e) In the event that the Insured cannot obtain an admission of liability from the insurer of an Underlying Insurance and/or Underlying Insurance fails or is reasonably likely not to indemnify the Insured, then the Insurers of this Master Policy shall be obligated to indemnify the Insured.  
   (f) The provisions of this clause are subject always to the terms, Conditions and Exclusions of this Master Policy, except as provided under (c) above.  
   (g) In the event of cancellation of an Underlying Insurance or reduction or exhaustion of the limits of indemnity thereunder, this Master Policy shall:  
      (i) in the event of reduction, pay in excess of the reduced Underlying Limit;  
      (ii) in the event of cancellation or exhaustion, continue in force as Underlying Insurance.  
   (h) **Appeals**  
In the event the Insured or the insurers of the Underlying Insurance electing not to appeal a judgement in excess of the Underlying Limits, the Insurers may elect to make such appeal at their own cost and expense and shall be liable for the taxable costs and disbursements and interest incidental thereto, but in no event shall the liability of the Insurers exceed the Limits of Liability excluding the costs and expenses of such appeal.
20. **Leading Insurer**
