Master IT Services Agreement

General Terms

1 Contract structure

1.1 Overview

This agreement consists of the following parts:

(a) these General Terms - the clauses of these General Terms set out the contractual framework under which the Supplier will perform the Services;

(b) the Contract Details - the details set out the key commercial variables applicable to this agreement;

(c) Project Orders - sets out the detailed provisions relating to Services for each Project;

(d) the Scope of Works - forms part of a Project Order and sets out the detailed provisions relating to the supply of Services including specifications (or how they will be developed), project timetable and resourcing requirements;

(e) the other Attachments - sets out forms and other material relevant to this agreement.

1.2 Master Agreement

This agreement sets out the terms on which the Supplier will provide services to RMS from time to time. The details of the specific services for each Project will be set out in a Project Order entered into pursuant to this agreement.

1.3 Project Orders

Each Project Order is incorporated into this agreement when executed by both parties. RMS makes no representation that it will:

(a) enter into any Project Orders under this agreement; or

(b) obtain a certain value of Services.

1.4 Addition of new Project Orders

RMS may from time to time request the Supplier to provide services under this agreement (“Project Request”).

1.5 Project Proposal

On receiving a Project Request, the Supplier must:
(a) prepare and submit a proposal to RMS for the Requested Services ("Project Proposal") within the time frame agreed with RMS (or failing agreement as soon as reasonably practicable);

(b) if the Supplier is unable to provide the Requested Services, give written notification to RMS, including reasons, that it cannot provide the Requested Services; or

(c) where the fees for any Project Order are based on time and materials the Project Proposal must be based on the Time and Materials Rates.

1.6 Changes to Project Proposal

Where RMS requests changes to a Project Proposal, the Supplier must prepare and submit a revised Project Proposal to RMS incorporating all changes reasonably requested by RMS.

1.7 Execution of Project Order

If RMS accepts a Project Proposal, the parties agree to execute a Project Order based on the detail in the Project Proposal.

1.8 Priority

If there is any inconsistency between any of the parts of this agreement, the part listed higher in clause 1.1 (Overview) takes priority over any part listed lower in that clause, but only to the extent of the inconsistency.

1.9 Definitions and interpretation

The definitions used in this agreement and the rules of interpretation are set out in the Dictionary in Schedule 1.

1.10 Non Exclusivity

There is no express or implied obligation on the part of RMS to obtain any deliverables or services exclusively from the Supplier.

2 Term

2.1 Term of Agreement

(a) Subject to clause 2.1(b), this agreement commences on the Commencement Date and continues until the second anniversary of the Commencement Date (Expiry Date), unless extended under clause 2.1(b) or earlier terminated under its terms.

(b) RMS may extend this agreement on the same terms (subject to clause 16.6 (Review of Time and Materials Rates)) as follows:

(i) at least one month before the Expiry Date, RMS may notify the Supplier of its intention to elect to renew this agreement on the Expiry Date for a further period of one year after the Expiry Date (Extended Term); and
(ii) at least one month before the end of the Extended Term, RMS may notify the Supplier of its intention to elect to renew this agreement on the last day of the Extended Term for a further period of one year.

(c) If, on expiry of the Contract Period, there remains one or more Project Orders which have not yet expired:

(i) this agreement will continue in respect of those unexpired Project Orders until the first to occur of expiry of the Project Order or termination of the Project Order in accordance with the terms of this agreement; and

(ii) no new Project Orders may be entered into after expiry of the Contract Period.

2.2 Term of Project Orders

Each Project Order commences on the Project Order Commencement Date and continues until the first to occur of:

(a) the Project Order Expiry Date; or

(b) termination of the Project Order in accordance with this agreement,

unless terminated earlier in accordance with this agreement.

2.3 Extension of Project Orders

For each Project Order the Project Order Expiry Date may be extended by periods of extension specified in the Project Order if RMS gives the Supplier not less than 60 days’ written notice prior to the Project Order Expiry Date.

2.4 Termination of held over SSIMAs

The parties agree that, effective on the Commencement Date of this agreement, the following agreements between them will terminate:

(a) the Enforcement & Technology Development, Maintenance and Support Agreement dated 1 August 2006 (Contract Reference 0606ETS074); and

(b) the Lotus Notes Workflow Applications, Maintenance, Support and Enhancement Agreement dated 22 September 2006 (Contract Reference 0511VRW071).

3 Scope

3.1 Scope

The Supplier must:

(a) supply the Deliverables; and

(b) supply the Warranty Support Services (if any) for each Maintained Item; and
(c) carry out the Services,

as required by this agreement in a diligent and competent manner with all reasonable skill and care and in compliance with all applicable laws.

3.2 Co-operation with third parties

The Supplier must reasonably co-operate with other RMS suppliers, contractors and consultants including:

(a) complying with any RMS direction to provide them with access to or use of a Deliverable;

(b) complying with any reasonable direction of RMS; and

(c) not interfering with, disrupting or hindering the work being carried out by them.

4 Services

4.1 General

The Supplier must provide the Services to RMS:

(a) in accordance with each Project Order;

(b) in a manner so that it meets or exceeds the Service Levels; and

(c) on the terms and conditions of this agreement.

4.2 Documentation

(a) In respect of each Project Order, on completion of the relevant Services or provision of Deliverables or Maintained Items, or on request of RMS, the Supplier must provide two copies of the Documentation (in both hardcopy and electronic form) to RMS at no additional cost.

(b) During each Project Term, the Supplier must:

(i) maintain and update any Documentation for the relevant Project to take into account any change or modification to the Services, Deliverables or Maintained Items to which the Documentation relates; and

(ii) if requested by RMS, provide two copies of the updated Documentation (in both hardcopy and electronic form) to RMS at no additional cost.

(c) If RMS requests any Documentation for a Project in addition to that required to be provided under paragraphs (a) or (b), the Supplier must provide additional copies of the then current Documentation for that Project at a reasonable charge on a cost recovery basis only.
4.3 Incidental services

(a) The Supplier must provide any incidental services not specifically described in a Project Order which are ordinarily required for RMS to benefit from the Services or use the Deliverables and Maintained Items.

(b) The Supplier must provide these incidental services at no additional charge unless it is required to engage resources additional to the resources already utilised by the Supplier in the provision of the Services. In that case, the Supplier:

(i) will notify RMS, setting out the reasonable incremental cost to the Supplier of providing the relevant incidental service;

(ii) will not perform the relevant incidental service until RMS has approved the Supplier’s incremental costs; and

(iii) will invoice RMS for the approved costs, and RMS will pay those costs, in accordance with clause 17 (Invoices and payments).

5 Service Levels and Service Rebates

5.1 Service Level failures

Where the Supplier fails to meet any Service Level, the Supplier must at no additional cost to RMS promptly:

(a) at RMS’s option, pay to (as required by clause 17.4 (Amounts due to RMS)) or credit RMS, the applicable Service Rebates;

(b) if requested by RMS, in the case of Services re-perform those Services which gave rise to the failure to meet the Service Level;

(c) use all reasonable endeavours to correct the issue which caused the failure to meet the Service Level;

(d) arrange all additional resources reasonably necessary to deliver the Deliverables or perform the Services in accordance with the Service Levels as soon as practicable; and

(e) if requested by RMS, provide at no charge to RMS a detailed report on the steps taken by the Supplier to prevent similar future non-compliance with the Service Levels.

5.2 Service Rebate Cap

The Service Rebates will be calculated on a cumulative basis with the maximum aggregate Service Rebate under a Project Order in any month being limited to the Service Rebate Cap under that Project Order.

5.3 Service Level Reporting

Subject to any alternative reporting obligations set out in a Project Order, for each Project Order, within five Business Days of the end of each month during the Project Term, the Supplier must provide to RMS a written report setting out...
all information reasonably required by RMS including details of the Supplier’s performance against Service Levels and the amount of applicable Service Rebates for that Project Order.

5.4 Other Remedies
The remedies in clause 5.1 (Service Level failures) do not:

(a) prejudice any of RMS’s rights or remedies under this agreement or arising at law (including the right to seek common law damages if clause 5.1(a) is held to be unenforceable, void, invalid or otherwise inoperative); or

(b) relieve the Supplier of any other liability under this agreement.

5.5 No penalty
If a Service Rebate applies, then the parties agree that the payment of a Service Rebate is not a penalty but is a genuine pre-estimate of the loss RMS is likely to suffer as a result of the failure by the Supplier to meet the relevant Service Level.

6 Other Supplier Obligations

6.1 Standard of performance
Without limiting the Supplier’s obligations under this agreement, the Supplier must perform its obligations under this agreement:

(a) in accordance with best industry practice;

(b) with all due care, skill and diligence expected of a professional service supplier and in a proper and workmanlike manner; and

(c) in a cost effective manner consistent with the required level of quality and performance.

6.2 Comply with requirements
(a) Without limiting the Supplier’s obligations under this agreement, the Supplier must comply, and must ensure that the Supplier Personnel comply, with:

(i) the RMS Policies;

(ii) all other reasonable requirements and directions of RMS in relation to the Deliverables, Maintained Items and the Services; and

(iii) the Supplier's own internal standards and policies (other than any which are inconsistent with this agreement).

Where there is any inconsistency between any of the requirements set out above, the requirement listed earlier prevails to the extent of the inconsistency.
(b) If the Supplier’s compliance with clause 6.2(a)(ii) requires it to engage resources additional to the resources already utilised by the Supplier in the provision of the Services, it will:

(i) notify RMS, setting out the reasonable incremental cost to the Supplier of performing the relevant action;

(ii) not perform the relevant action until RMS has approved the Supplier’s incremental cost; and

(iii) invoice RMS for the approved costs following performance of the action, and RMS will pay those costs, in accordance with clause 17 (Invoices and payments).

7 Deliverables

7.1 General
The Supplier must supply the Deliverables to RMS in accordance with:

(a) each Project Order; and

(b) the terms and conditions of this agreement.

7.2 Specifications
The Supplier must ensure that the Deliverables comply with the Specifications.

7.3 Assistance
The Supplier must provide RMS with all reasonable assistance (including installation and testing) to ensure the Deliverables are fully functioning and comply with the Specifications. If the Supplier’s compliance with this clause 7.3 requires it to engage resources additional to the resources already utilised by the Supplier in the provision of the Services, it will:

(a) notify RMS, setting out the reasonable incremental cost to the Supplier of performing the relevant action;

(b) not perform the relevant action until RMS has approved the Supplier’s incremental cost; and

(c) invoice RMS for the approved costs following performance of the action, and RMS will pay those costs, in accordance with clause 17 (Invoices and payments).

8 Testing and Acceptance of Deliverables

8.1 Acceptance Testing
The parties agree that:

(a) the Deliverables will be subject to Acceptance Tests in accordance with this clause 8 (Testing and Acceptance of Deliverables) and the Project Order; and
the Supplier has primary responsibility for undertaking Acceptance Tests except as otherwise set out in this clause.

8.2 Responsibility for Acceptance Tests
The Supplier must:

(a) develop the Testing Plans for the Acceptance Tests for approval by RMS;

(b) subject to clause 8.3 (Testing by RMS):

(i) undertake Acceptance Tests in accordance with the Testing Plans approved by RMS; and

(ii) permit RMS to observe the conduct of Acceptance Tests; and

(c) provide RMS with the test results for the Acceptance Tests.

8.3 Testing by RMS
RMS will undertake any User Acceptance Testing component of the Acceptance Tests. The Supplier must provide all reasonable assistance requested by RMS in respect of the User Acceptance Testing. RMS will permit relevant Supplier Personnel to observe the User Acceptance Tests.

8.4 RMS’s Notice of Acceptance
If the Acceptance Tests (including the User Acceptance Tests) reasonably demonstrate that the Deliverables are free from Defects, then within 10 Business Days of the successful completion of the Acceptance Tests, RMS will issue a notice to the Supplier confirming Acceptance of the Deliverables.

8.5 Acceptance Test failure
A Deliverable will fail the Acceptance Tests if the Acceptance Tests demonstrate that it contains Defects or if the Acceptance Tests are unable to be completed within the Acceptance Test Period due to the fault of the Supplier. If a Deliverable fails the Acceptance Tests, then within 10 Business Day of completion of the Acceptance Tests or expiry of the Acceptance Test Period RMS will give the Supplier a notice either:

(a) notifying the Supplier of the reasons for the failure and a further date on which the Supplier must resubmit the corrected Deliverable to RMS for a repeat of the of Acceptance Tests; or

(b) notifying the Supplier that RMS Accepts the Deliverable “as is”, notwithstanding the failure, subject to:

(i) in respect of Defects other than Third Party Defects, the Supplier completing, at its own cost, a set of procedures (eg work-around) required by RMS to remove those Defects or their impact; and

(ii) in respect of Third Party Defects, the Supplier providing all assistance and information reasonably requested by RMS to
identify and engage the relevant third party provider (if any) to correct the Third Party Defect.

If any Deliverable is Accepted under paragraph (b) and the Supplier fails to complete the set of procedures as required by the Notice of Acceptance, RMS may notify the Supplier that its Acceptance of that Deliverable is withdrawn, in which case RMS may exercise its rights under clause 8.5(a).

8.6 Correction and restart of Acceptance Tests
On receipt of a Notice of Failure, the Supplier must:

(a) correct, at its own cost, all Defects in the relevant Deliverable other than Third Party Defects; and

(b) in respect of Third Party Defects, provide all assistance and information reasonably requested by RMS to identify and engage the relevant third party provider (if any) to correct the Third Party Defect.

The Supplier must resubmit the corrected Deliverable for a repeat of the Acceptance Tests by the date set out in the Notice of Failure. All of the Acceptance Tests undertaken prior to the issue of a Notice of Failure will be repeated and the whole Acceptance Test Period will recommence.

8.7 Further failure of Acceptance Tests
If a Deliverable fails the Acceptance Tests carried out under clause 8.6 (Correction and restart of Acceptance Tests), RMS may at its option do any of the following:

(a) issue a Notice of Failure under clause 8.5(a) (Acceptance Test failure) in which case clause 8.6 (Correction and restart of Acceptance Tests) and this clause 8.7 (Further failure of Acceptance Tests) will apply to a further round of correction and testing;

(b) accept the Deliverable or parts of the Deliverable by notice to the Supplier, notwithstanding the failure, for a reduction of the relevant Project Order Fees agreed by the parties;

(c) accept the Deliverable “as is” by notice to the Supplier, subject to:

(i) in respect of Defects other than Third Party Defects, the Supplier completing, at its own cost, a set of procedures (eg work-around) required by RMS to remove those Defects or their impact; and

(ii) in respect of Third Party Defects, the Supplier providing all assistance and information reasonably requested by RMS to identify and engage the relevant third party provider (if any) to remove the Third Party Defects or their impact; or

(d) reject the Deliverable and may, unless the Defect is a Third Party Defect, immediately terminate the relevant Project Order for breach by the Supplier under clause 29.1 (Termination by RMS for cause).

If any Deliverable is Accepted under paragraph (c) and the Supplier fails to complete the set of procedures as required by the Notice of Acceptance, RMS
may notify the Supplier that its Acceptance of that Deliverable is withdrawn, in which case RMS may exercise its rights under clause 8.7(a),(b) or (d).

8.8 Liquidated damages

If any Deliverable has not been Accepted by the applicable Due Date for Acceptance, the Supplier must pay to RMS the applicable Liquidated Damages for the period commencing on the day after the Due Date for Acceptance and ending on the earlier of:

(a) the Acceptance Date under the relevant Project Orders; or
(b) the date of termination of the relevant Project Orders by RMS.

The parties agree that an execution of a Project Order is an acknowledgment that the applicable Liquidated Damages under that Project Order have been discussed and negotiated between the parties and represent a genuine pre-estimate of the loss that RMS is likely to suffer as a result of the Supplier failing to meet the applicable Due Date for Acceptance.

8.9 No deemed acceptance

For the avoidance of doubt, none of the following will give rise to any deemed acceptance of any Deliverables, nor waive any rights RMS has under clause 8 (Testing and Acceptance of Deliverables) or otherwise:

(a) RMS's failure to issue a Notice of Failure; or
(b) RMS's failure to complete the User Acceptance Testing during the Acceptance Test Period; or
(c) use of the Deliverables outside the testing environment.

8.10 Purpose of Acceptance Testing

The parties acknowledge that:

(a) Acceptance Tests are not capable of testing for every possible Defect;
(b) the sole purpose of the Acceptance Tests under clause 8 (Testing and Acceptance of Deliverables) is to provide RMS with the remedies set out or referenced in this clause; and
(c) Acceptance does not affect the Supplier's obligation to correct Defects.

9 Warranty Support Services for Maintained Items

9.1 Warranty Support Services

If a Project Order specifies a Warranty Period, then, subject to clause 9.2 (Exclusions), during the Warranty Period for that Project Order, the Supplier must:

(a) notify RMS as soon as reasonably practicable of all Defects in the relevant Maintained Items which it becomes aware of or it reasonably suspects; and
(b) correct any Defect in the relevant Maintained Items notified by RMS in a timely and professional manner and as required by the applicable Service Levels.

9.2 Exclusions

The Warranty Support Services do not include the services described in clause 9.1 (Warranty Support Services) to the extent they are required as a result of any of the following and provided that the Supplier promptly notifies RMS:

(a) improper installation of equipment or software which was not installed by or on behalf of, or as directed by, the Supplier;

(b) modifications or alterations to or work carried out on the Maintained Items not effected or authorised by or on behalf of the Supplier or reasonably incidental to work so effected or authorised;

(c) RMS's failure to observe the specifications of the Supplier or the relevant manufacturer or licensor regarding use, operating or environmental conditions for the Maintained Item, provided those specifications have been provided to RMS and are consistent with the Project Orders; or

(d) misuse, abuse, accidental damage (excluding fair wear and tear) or negligent use or operation of the Maintained Items by RMS.

Where the Supplier has properly given notice under this clause and RMS consents in writing to the Supplier proceeding to provide the services, the Supplier must perform the services and may invoice RMS for them at the Time and Materials Rates.

9.3 Warranty Period

For each Project Order the Warranty Period commences on the applicable Acceptance Date and continues for the period specified in the Project Order.

9.4 Warranty repairs

If a Deliverable is or becomes defective in any way during the Warranty Period, then, at RMS's absolute discretion:

(a) the Supplier must immediately replace or repair the Deliverable at the Supplier's cost; or

(b) RMS may return the Deliverable to the Supplier and the Supplier must fully refund any amounts paid for the Deliverables that RMS does not retain.

9.5 Warranty support free of additional charge

The Supplier must provide the Warranty Support Services for each Project free of additional charge during the Warranty Period for that Project.
10 Project management

10.1 Project management services
The Supplier has primary responsibility for project managing each Project except to the extent the relevant Project Order specifies otherwise. Project management includes:

(a) ensuring that the Project Timetable is followed and that delays are notified and addressed as required by clause 11 (Project Timetable and delays);

(b) identifying who will perform the Services, when each item is required, and how the Services will be executed and validated;

(c) co-ordinating the activities under each Project Order and the functional outputs of all involved groups including sub-contractors but excluding those activities which are identified in the Project Timetable or Scope of Works as being allocated to RMS or other RMS contractors;

(d) preparing for and participating in scheduled quality assurance and audit check points and procedures; and

(e) managing Change under clause 19 (Change control).

10.2 Progress reports
The Supplier must keep RMS Representative reasonably informed of the progress of each Project and, at the end of each Reporting Period during the relevant Project Term, must provide to RMS Representative a written report on that progress. Each such report must include for each Project:

(a) a narrative summary of the progress of the Project including Services performed and Milestones reached;

(b) detail any failure or anticipated failure to achieve any Milestones as required by the Project Timetable and matters that could affect the timely achievement of Milestones or increase in the Charges; and

(c) recommendations for avoiding or minimising failures to achieve Milestones as required by the Project Timetable.

Nothing in a progress report varies the Project Timetable or any of the Supplier’s responsibilities under a Project Order or this agreement. To the extent a progress report identifies an actual or possible delay, the Supplier must comply with clause 11 (Project Timetable and delays).

11 Project Timetable and delays

11.1 Contents of the Project Timetable
The Supplier must ensure that Project Timetable for each Project Order contains:

(a) the name of the Key Personnel assigned to each task;

(b) the role of the named Supplier Personnel; and
the effort required by that Supplier Personnel to complete the task (as measured in days and hours).

For example, if the Project Order specifies “Develop first draft of operations manual”, the Project Order will list for that task:

- John Smith (named Supplier Personnel);
- Technical Specialist (role); and
- 2 days at 8.5 hours per day (effort).

11.2 Compliance with Project Timetable

Subject to this clause 11 (Project Timetable and delays), the Supplier must comply with the dates and times set out in each Project Timetable.

11.3 Notification of delay

If any event or circumstance occurs which the Supplier considers may render it unable to achieve any Milestone as required by a Project Timetable, it must immediately notify the RMS Representative and may request an extension of time by providing a draft updated Project Timetable with revised dates for achievement of Milestones.

11.4 Supplier delays

If the Supplier notifies RMS under clause 11.3 (Notification of delay) that it may fail to achieve a Milestone as required by a Project Timetable, then RMS may, but except as required by clause 11.5 (Extension for RMS’s delay or event outside Supplier control), is not obliged to, grant an extension of time for the achievement of that Milestone.

If RMS refuses to grant an extension, then:

(a) the applicable Project Timetable remains unchanged; and

(b) the Supplier must:

(i) do, at no additional cost to RMS, all things reasonably necessary to overcome the actual or possible delay, including increasing numbers or average skill or experience level of Supplier Personnel (or both); and

(ii) inform RMS of all solutions and strategies to overcome, manage or minimise the delay or failure.

11.5 Extension for RMS’s delay or event outside Supplier control

Subject to clause 11.6 (Option to require additional resources), the Supplier will be entitled to claim, and RMS is required to grant, a reasonable extension of time under a Project Timetable for the Due Date for Acceptance and any other affected Milestones if:

(a) the Supplier notifies RMS of a possible or actual delay under clause 11.3 (Notification of delay);
the Supplier gives the notice promptly after becoming aware of the relevant event and gives RMS all details reasonably necessary to enable RMS to determine the cause of the delay and the likely effect on timetable;

(c) the delay cannot be made up so that the Due Date for Acceptance is still met without varying or increasing resources used on the relevant Project by the Supplier; and

(d) the delay is caused by one or more of the following events:

(i) a failure by RMS, or another RMS contractor or supplier who is not managed by the Supplier, to carry out any tasks or requirements assigned to it or them in the relevant Scope of Works as required by the timetable (but not including any such failures which result from a prior failure of the Supplier to meet its obligations);

(ii) a Force Majeure Event; or

(iii) a direction or delay by a Government Agency (except to the extent this results from a wrongful act or omission of, or a breach of this agreement by, the Supplier or any person for whom the Supplier is responsible).

11.6 Option to require additional resources

Where the requirements of clause 11.5 (Extension for RMS’s delay or event outside Supplier control) are met, but the Due Date for Acceptance can still be met by the Supplier if it increases numbers or average skill set or experience level of Supplier Personnel (or both) used on the relevant Project, RMS may elect:

(a) to grant a reasonable extension of time under the relevant Project Timetable; or

(b) to require the Supplier to increase or vary the Supplier Personnel accordingly, in which case RMS must pay reasonable additional fees to compensate the Supplier for its additional costs and the relevant Project Timetable remains unchanged.

11.7 Delay caused partly by the Supplier

Where a delay results partly from one or more events referred to in clause 11.5(d) and partly from a failure by the Supplier, RMS is only obliged to give an extension which is reasonable having regard to the extent to which the event or events referred to in clause 11.5(d) have increased, or are likely to increase, the delay.

11.8 Unrequested extension of time

RMS may extend the Due Date for Acceptance and any other Milestones for any reason at any time on notice to the Supplier, whether or not the Supplier is entitled to or has requested such an extension.
11.9 Failure to notify
If the Supplier does not notify RMS of a potential delay as required by clause 11.3 (Notification of delay), then:

(a) no extension of time will be made (unless by RMS under clause 11.8 (Unrequested extension of time));

(b) the Supplier must perform its obligations as required by the relevant Project Timetable; and

(c) any principle of law or equity which might otherwise make the date for achievement of an obligation uncertain and payment of Liquidated Damages unenforceable, does not apply.

12 Supplier Representative and Supplier Personnel

12.1 Supplier Representative
The Supplier must appoint a senior representative approved by RMS to act as the Supplier’s principal point of contact for each Project Order. The Supplier must ensure that the Supplier Representative for each Project Order:

(a) has appropriate project management skills to undertake the role;

(b) takes responsibility for prompt and efficient project management of the Project; and

(c) supervises the Supplier Personnel and the performance of the work that the Supplier Personnel are required to perform under the applicable Project Order.

12.2 Replacement of the Supplier Representative
If the Supplier wishes to replace a Supplier Representative it must:

(a) give RMS at least 10 Business Days’ notice and must ensure that any replacement meets the requirements of clause 12.1 (Supplier Representative); and

(b) give RMS the opportunity to meet and approve the replacement prior to his or her appointment.

12.3 RMS approval of Supplier Personnel
If specified in a Project Order, the Supplier must obtain RMS’s prior approval to each member of Supplier Personnel who will undertake Services in connection with that Project Order (or those parts of the Services specified in the Project Order).

12.4 Withdrawal of approval
RMS may at any time on reasonable grounds (which need not be proven) and without liability withdraw, limit or suspend its approval of a Supplier Representative or a member of Supplier Personnel given under clause 12.3 (RMS approval of Supplier Personnel) by notifying the Supplier and giving reasons. If
required by RMS, the Supplier must propose another person for approval within a reasonable time of receiving the notice. The Supplier must ensure that the replacement of Supplier Personnel under this clause is made without inconvenience or cost to RMS and without impact on the relevant Project Timetable or delivery of the Services.

12.5 Key Personnel
Where a Project Order specifies Key Personnel, the Supplier must ensure that all Key Personnel are available and assigned to providing the Services and performing the role identified for that person (if any) in that Project Order. Where no specific person is specified but a Key Personnel position and role is specified in the relevant Project Order, the Supplier must ensure that appropriately qualified Supplier Personnel are available and assigned to providing the Services and performing the role identified for that position in the Project Order.

12.6 Change to Key Personnel
The Supplier must not change any Key Personnel’s involvement in the provision of the Services and performance of this agreement unless:
(a) they are incapacitated or unable to perform their role for any reason, or leave the Supplier’s employment;
(b) the Services which they were performing are complete; or
(c) RMS gives prior written consent to the change.

12.7 Notice of change to Key Personnel
The Supplier must replace Key Personnel who cease to be involved in providing the Services under clause 12.6(a) or 12.6(c) (Change to Key Personnel) with a person of equivalent skills and experience and who has been approved by RMS.

12.8 Compliance with RMS’s policies
(a) The Supplier will ensure that the Supplier Personnel, when on RMS’s premises and when accessing RMS’s facilities, computer systems and information, comply with the RMS Policies and all other requirements and directions of RMS in regard to conduct, behaviour, protection of privacy, use of systems, safety and security (including submitting to security checks as required and complying with any obligation imposed on any person by law).
(b) Where requested by RMS, the Supplier must ensure that the Supplier Personnel execute a deed of confidentiality in the form required by RMS.

12.9 Denial of access
(a) If a member of Supplier Personnel breaches the requirements under this agreement including RMS Policies, RMS may, at any time and for any period, refuse the person access to RMS premises.
(b) If it is appropriate and practicable to do so RMS will give the Supplier prior written notice of the refusal of access under clause 12.9(a) (Denial
of access) to allow the relevant member of Supplier Personnel to vacate the premises.

relevant Supplier Personnel. RMS may request that the Supplier carries out
further rounds of criminal record searches in relation to Supplier Personnel, but

(a) enables the Services to be provided in accordance with this agreement except as specifically agreed by RMS;

(b) reflects best industry practice in relation to the planned continued provision of the Services to RMS where there is a Disaster Recovery Event; and

- Make sure that the terminology of your Scope of Works matches the Contract terminology. A Scope of Works taken from an RFP will need to be reviewed, edited and updated before it will be suitable to attach as the RFP terminology may not match this Agreement (eg “Supplier” not “tenderer” and to ensure that any “extras” offered in the successful tender are captured.
Attachment B - CSR Order Template

CSR ORDER

A CSR Order will be completed for low value (less than $10,000) projects associated with services being provided under an existing Project Order (e.g. minor development work, ad hoc reports, data analysis).

A CSR is not required for any services or deliverables that are already due from the Supplier under an existing Project Order. The CSR process is intended to ensure that CSRs are only raised for services and deliverables that are out-of-scope.

CSRs are raised and negotiated through the existing CSR management process (01PR0735). This process will lead to the preparation and execution of a CSR Order and potentially an amendment to the relevant Project Order:

(i) A CSR Order – this document will capture the information set out below, aggregated from the CSR, CSQ and CSS forms used in the CSR process
(ii) An amendment to the relevant Project Order – if the provision of a deliverable under a CSR Order leads to a change in services provided (e.g. maintenance services) and fees charged under the related Project Order, those changes will need to be documented by a variation to the Project Order.

This CSR Order is entered into pursuant to the provisions of the Master IT Services Agreement dated [insert date] between:

ROADS AND MARITIME SERVICES, of 101 Miller Street, North Sydney, NSW (RMS); and

ITREE PTY LTD ABN 82 072 883 124 of Level 14, 309 Kent Street, Sydney NSW 2000 (Supplier),

and forms part of the relevant Project Order (as listed below).

Notes

1. A Contractor is any person or company who carries out work under a contract of any kind for any business of RMS. References to “Subcontractor” and “Principal Contractor” in the legislation mentioned below have been changed in this Statement to “Contractor” and “RMS” respectively to avoid confusion.

2. This form is prepared for the purposes of section 127 of the Industrial Relations Act 1996 (“IRA”), section 175B of the Workers Compensation Act 1987 (“WCA”) and Schedule 2 Part 5 of the Payroll Tax Act 2007 (“PTA”). These provisions allow RMS to withhold payment from a Contractor without any penalty unless and until the Contractor provides to RMS a Statement declaring that:

   a. all workers compensation insurance premiums payable up to and including the date(s) on the Statement have been paid; and
   b. all remuneration payable to relevant employees for work under the contract has been paid; and
   c. all payroll tax payable relating to the work undertaken has been paid.

3. Section 127 of the IRA says that the Statement must state the period to which it relates. For sequential statements ensure that the dates provide continuous coverage.

4. The person signing this declaration must be a person who is authorised by the Contractor either to sign this Statement (or to sign statements of this kind) and must be a person who is in a position to know the truth of the statements. The Contractor’s principal accounting/financial officer may be appropriate. An individual project manager will normally not be appropriate, if the Contractor is a company then the person signing should be a director unless the company has delegated the power to sign such statements to another person (e.g. the principal accounting officer).

5. A Statement is not required where RMS is making payment to a receiver, liquidator or trustee in bankruptcy (see section 127(10) of the IRA, section 175B(12) of the WCA and Sch 2 Part 5 (20) of the PTA).

6. Section 127(6) of the IRA says that references to payments to workers means all types of remuneration to which they are entitled.

7. As of 30 June 2011, an employer is exempt from taking out workers compensation insurance if the employer pays less than $7500 annually on wages, does not employ an apprentice or trainee and is not a member of a group for workers compensation purposes.

Generic Version of Statement

Record Retention

RMS will keep a copy of this Statement for 7 years. If the Contractor obtains a similar statement from its subcontractor then the Contractor must keep that statement for 7 years.

Offences for False Statement

Knowingly giving a false statement may be an offence under section 127(8) of the IRA, section 175B of the WCA and Sch 2 Part 5 clause 18(8) of the PTA.

**Definitions & Notes**

1. Approved Insurer means
   
   (a) An Australian registered insurance company which is approved by the Australian Prudential Regulatory Authority (APRA) to conduct general insurance business in Australia;
   
   (b) Lloyds Underwriters;
   
   (c) A Treasury Managed Fund insurance scheme with the NSW State Government; or
   
   (d) The Comcover insurance scheme for the Australian Federal Government.
   
   Note that where the insurance risk is insured by an insurer not listed in Note 1(a) or 1(b) then a ‘fronting’ placement is acceptable from an insurer listed in Note 1(a) or 1(b).

2. Insurances policies must be subject to the laws of Australia (or an Australian State or Territory) and their courts.

3. A Cross liability clause operates as if there was a separate policy of insurance covering each of the insured. This means that the insurer provides each party named on the insurance policy access to the limit of liability, subject to the overall limit under the policy.

4. References in this Insurance Schedule to the “contractor” and the “contract” are to be interpreted to harmonise with the terminology used in the contract in which this Insurance Schedule is used (eg “Supplier” and “Agreement” or as the case may be).
