General Terms
Part A – Agreement Term & Scope of Services

1  Term and Overview

1.1  Phases of the agreement
This Agreement commences on the Commencement Date and is comprised of the following phases:

(a)  a Delivery Phase, during which the Supplier must provide the Delivery Services, as described in Part B of these General Terms; and

(b)  the Operations and Maintenance Phase, during which the Supplier must provide Operations and Maintenance Services, as described in Part C of these General Terms.

1.2  Operations and Maintenance Phase

(a)  If the Principal notifies the Supplier, at least 120 days prior to the expiry of the Operations and Maintenance Phase, that it wishes to extend the Operations and Maintenance Phase for any extension period specified in the Contract Details, then this Agreement will be extended for such period.

(b)  The Principal may extend the Operations and Maintenance Phase under this clause 1.2 twice, and any additional number of times agreed by the parties.

(c)  Subject to clause 1.2(d), the same Service Levels and Operations and Maintenance Fees will apply during the Operations and Maintenance Phase and any extension of the Operations and Maintenance Phase made under this clause.

(d)  Where this Agreement is extended under clause 1.2(a), the Supplier may vary the Operations and Maintenance Fees in accordance with Schedule 2B.

2  Due Diligence

(a)  As at the Commencement Date, the Supplier acknowledges that it has had the opportunity to conduct appropriate due diligence and inform itself of all matters (including those related to the System and Site) necessary to enable it to:

(i)  form the decision to enter into this Agreement;

(ii)  satisfy itself as to the scope and nature of the Services to be provided; and

(iii)  satisfy itself that it is able to perform its obligations under this Agreement for the Contract Price and Operations and Maintenance Fees.
(b) Without limitation, the Supplier agrees that it is not relieved of any of its obligations under this Agreement and will make no Claim against the Principal as a result of the Supplier’s failure to conduct appropriate due diligence and inform itself of all matters referred to in clause 2(a).

3 Scope of Services

3.1 Scope
The Supplier must supply the System and provide the Services to the Principal in accordance with the Specifications and this Agreement, including by:

(a) preparing the Documentation as required under this Agreement;

(b) providing the Delivery Services; and

(c) providing Operations and Maintenance Services.

3.2 No exclusivity
Without limiting anything in clause 42.3, the Supplier’s relationship with the Principal is not exclusive, and the Principal may itself deliver any part of the Services, or engage a third party to perform any part of the Services.

3.3 Other Authorities
The Supplier acknowledges and agrees that, without limiting any of the Supplier’s rights under clause 16.5, and provided that any changes to which clause 29 applies are effected in accordance with that clause:

(a) there are Authorities (other than the Principal) which may exercise their statutory functions and powers in a manner which:
   (i) disrupts, interferes with or otherwise affects the Services; and
   (ii) imposes additional terms and conditions on the Principal in relation to the Services; and

(b) the Supplier bears the full risk of all occurrences of the kind referred to in clause 3.3(a) and will have no Claim against the Principal arising out of or in connection with such occurrences; and

(b) The Supplier must at all times:
   (i) act in a manner consistent with the Project Objectives;
   (ii) do all things as are reasonably necessary to facilitate the achievement of the Project Objectives; and
(iii) track and report on its performance against the Project Objectives.

(c) As soon as the Supplier becomes aware that any of the Project Objectives may not be achieved, the Supplier must immediately notify the Principal's Representative in writing, setting out:

(i) the reasons why it believes this to be the case, including any supporting evidence; and

(ii) the proposed alternative methods, if any, of achieving the Project Objectives.

(d) The Supplier acknowledges that the achievement of the Project Objectives does not limit the Supplier's other obligations and responsibilities under this Agreement.

3.5 Staging

The activities to be performed under clauses 4, 5, 6 and 7 are to be provided in discrete stages, as described in the SWTC (Delivery Services). Without limiting the foregoing, the parties acknowledge and agree that the activities described in sections 4, 5, 6, 7 and 8 of the SWTC (Delivery Services) will be repeated in respect of each Delivery Stage, and that the following testing activities will be repeated in respect of each Release and the System as a whole:

(b) The Supplier warrants and represents that the Deliverable is free from any charge or encumbrance at the time title passes to the Principal.
 Risk in each item of Deliverables passes to the Principal on the date of delivery to the Principal.

9 Software

9.1 Supplier Licensed Software

The Supplier grants to the Principal a perpetual, non-exclusive, irrevocable and royalty free licence to:

(a) use, reproduce, modify, configure, adapt and maintain, and exercise all Intellectual Property Rights in, any of the Supplier Licensed Software which is incorporated into, or required for the use of, the System or any Deliverable, and the Escrow Materials, in any manner, anywhere in the world; and

(a) The Supplier must design and develop software (including modifications or enhancements to the Supplier Licensed Software, the Procured Third Party Software, the Principal Supplied Third Party Software and the Included Open Source Software) needed to ensure that the System conforms to the Specifications.

(b) The Supplier will establish, and provide to the Principal for Acceptance, procedures:

(i) to identify and control software components of, and changes to, the Software and to maintain the integrity and traceability of the Developed Software at all stages of its development; and

(ii) to control the content of the Documentation relating to the Developed Software.

(c) The procedures referred to in clause 9.1(b) will include methods for:

(i) identifying and locating revisions of the Developed Software as it is developed;

(ii) ensuring compliance with the process for change control as set out in clause 29; and

(iii) controlling the issue of development revisions of the Developed Software.

(d) The Supplier will establish, and provide to the Principal for Acceptance, procedures for corrective action to the Developed Software and associated Documentation including:

(i) examination of Defects, problems and deficiency reports to determine their causes, and to prepare corrective measures;

(ii) analysis of deficiency trends, to prevent the development of Developed Software that does not conform to the Specifications;

(iii) review of corrective measures, to determine their effectiveness;

(iv) provision for defining all required repetition of testing and reviews to determine the effectiveness of modifications to any item of the Developed Software; and

(v) provision for ensuring that timely corrective action is taken by reviewing deficiencies in the Developed Software and tracking their clearance.

(e) The Supplier must provide the Source Code Materials for the Developed Software to the Principal no later than 30 days after the successful completion
of Acceptance Tests in accordance with clause 10.6 and at least 60 days prior to the Date for Practical Completion for Release 1, or such earlier time as requested by the Principal. The Supplier must provide to the Principal an updated copy of those Source Code Materials for the Developed Software within two weeks of completing any modifications to any of the Source Code Materials for that Developed Software.

(f) The Supplier warrants and represents that the Source Code Materials provided to the Principal under this clause 9.4 will contain everything necessary to enable a reasonably experienced programmer to install, configure, maintain, modify and enhance the Developed Software without reference to the Supplier.

9.5 Escrow for Supplier Licensed Software and Developed Software

(a) The Supplier must, within 20 Business Days of the Commencement Date, enter into an Escrow Agreement with the Principal and an escrow agent (as nominated by the Principal in its sole discretion) in the form set out in Schedule 7 in relation to the Escrow Materials. The Supplier must ensure that the Escrow Agreement is maintained for the Escrow Term.

(b) If the Escrow Agreement entered into under clause 9.5 is terminated and the Principal does not obtain the Escrow Materials, the parties must enter into an agreement with a new escrow agent on terms reasonably acceptable to the Principal within 20 Business Days of that termination.

(c) The licence under clause 9.1, to the extent it relates to the access to or modification of any Escrow Materials which are held in escrow under the Escrow Agreement (in the form in which they are held in escrow) may only be exercised from the time the Principal is entitled to have those Escrow Materials released to it in accordance with the Escrow Agreement. Nothing in this clause prevents the Principal or any other person from exercising any of its rights in relation to any Software or materials licensed to it under this Agreement (including under this clause 9 and clause 30.2), in the form in which that Software or those materials are made available to it before the time at which such release is required.

9.6 Software Supply and Installation

The Supplier must supply and install the Software (in executable form) on the Hardware in accordance with the Specifications and this Agreement. The Supplier must also supply or make available additional copies of the Software at any time on request by the Principal.

9.7 Software Integration

The Supplier must integrate (and work with other service providers to integrate) the Software, including the implementation and setting to work of the Software with or within the Principal’s existing hardware and software environment, to ensure that it is ready for use by the Principal and complies with all Specifications.

9.8 Software Locks

The Supplier will ensure that the Software does not contain any Software Locks without first obtaining the prior written consent of the Principal. Where the Principal provides such consent, the Supplier:
(a) will not use a Software Lock to prevent the Principal from using the Software including the functionality and performance required by the Specifications; and

(b) will provide all information (eg license keys) necessary to de-activate the Software Lock (in relation to any period required by the Principal) at the time of supplying the Software and immediately when requested by the Principal.

9.9 Future Delivery Services

The Principal agrees that it will not engage any third party service provider (excluding consultants, individual contractors or advisors to the Principal) to design, test or commission changes to the Supplier Licensed Software (other than Third Party Software and the Procured Third Party Software) to process data from additional roads in respect of which data is not being currently processed (Delivery Services) unless and until:

(a) it has first discussed the scope of the Delivery Services with the Supplier, and the parties have (despite using their reasonable endeavours to do so) failed to reach agreement on the terms on which such services would be performed within 90 days after the Principal requesting a written proposal from the Supplier for the performance of those services;

(b) the Supplier has committed a breach of its agreement with the Principal for the performance of any Delivery Services;

(c) the Principal’s agreement with the Supplier for the performance of any Delivery Services has been terminated due to any wrongful act or omission on the part of the Supplier, or for any reason analogous to those referred to in clause 41.1;

(d) the Supplier is Insolvent; or

(e) the Supplier has terminated this Agreement under clause 41.1 or has become entitled to do so.

9.10 Acknowledgement

To avoid doubt, nothing in this Agreement requires RMS to ensure that any third party complies with clause 9.9. The parties acknowledge and agree that any User Agreement (as defined in clause 46.2) may at the Supplier’s option include a provision no less favourable to the Supplier than the terms of clause 9.9 (but amended so that references to the Principal will be taken to be references to the entering into that User Agreement with the Supplier).

10 Verification and Acceptance Testing

10.1 Test and Acceptance Master Plan

(a) The Supplier must in consultation with the Principal, prepare a Test and Acceptance Master Plan in accordance with the SWTC.

(b) Once the Test and Acceptance Master Plan has been Accepted by the Principal, both parties must comply with it.
10.2 Documentation evaluation and Acceptance

(a) If the Principal has any comments on any Documentation, once it has been delivered by the Supplier for Acceptance, it will notify the Supplier of the alterations it reasonably requires to the Documentation within a reasonable time (taking into account the complexity of the Documentation and the number and level of Principal Personnel required to review the Documentation).

(b) The Supplier will amend the Documentation as quickly as reasonably possible (but no later than any period specified in the Delivery Plan or any other deadline specified elsewhere in this agreement for the delivery of it) to take account of the Principal's reasonable alterations, and re-submit it to the Principal for its Acceptance.

(c) The process under clause 10.2(a) and 10.2(b) will be repeated until the Principal requires no further alterations to the Documentation and accepts it in accordance with clause 10.6.

(d) Where this Agreement refers to the Principal approving or accepting any Documentation, no Acceptance will be taken to have been given by the Principal unless that Acceptance is in writing signed by the Principal's Representative.

(e) Once the Principal has Accepted any Documentation, it will be deemed to replace the previous versions from the date of the Principal's Acceptance.

10.3 Supplier Testing

(a) The Supplier will undertake verification and testing activities in accordance with the Specifications, to confirm that the Deliverables and Services comply with the requirements of this Agreement, including (in the case of Deliverables forming part of the System) by conducting Factory Acceptance Testing and System Testing (Non Operational) for each Release and confirming that those Deliverables (for each stage of those Acceptance Tests for each Release) comply with the applicable Acceptance Criteria (Supplier Testing).

(b) The Supplier must give the Principal at least 3 weeks' notice of the Supplier's intention to conduct any Supplier Testing and the Supplier must permit the Principal to observe any Supplier Testing and participate in any Supplier Testing as required.

(c) The notice given under clause 10.3(b) must include details of:

(i) the Deliverable or parts of the Deliverable to be tested;

(ii) the testing activities to be performed;

(iii) a comprehensive plan for the performance of testing activities; and

(iv) the proposed date and location of the testing activities.

(d) Without limiting anything in the Specifications, the Supplier must present the results of any Supplier Testing in a written report produced by the Supplier and delivered to the Principal as soon as practicable after completion of that testing (including copies of test plans, test scripts, traceability and coverage matrices and test results).
(e) The Supplier must bear its own cost of performing all testing activities which it is required to perform under this Agreement, and the only Principal testing costs the Supplier will bear are the additional costs directly arising by reason of retesting required under this Agreement, due to a failure of a Deliverable or Service to meet any applicable Acceptance Criteria.

(f) The Principal can order the interruption or termination of any testing activity if damage to a Deliverable or other property, or personal injury, is likely to result from continuation.

(g) Where testing activities are materially disrupted or interrupted by Defects in a Deliverable, the Principal may require the Supplier to deliver and install a patch or workaround as a priority to overcome the effect of those Defects and to enable the resumption and completion of the testing activities.

(h) Without limiting the other provisions of this clause, the Principal may carry out, or request the Supplier to carry out, any testing not described in this Agreement and which the Supplier would not otherwise have carried out as it determines necessary to verify that the System or the Deliverable does not contain any Defects and/or complies with the Acceptance Criteria for that Deliverable or a Milestone in relation to which Acceptance Tests have been conducted. The Supplier must arrange or permit such testing as soon as practicable. The Supplier will be entitled to be reimbursed its extra costs necessarily and reasonably incurred as a direct consequence of carrying out any such verification and testing, unless the Deliverable or part of the Deliverable fails such verification and testing, in which event the Supplier shall be responsible for such costs.

10.4 Go Live decision

The Principal will determine, in its absolute discretion, when each Release is to be moved into a Live Production Environment.

10.5 Verification and Acceptance Testing

(a) The Supplier will notify the Principal when a Service or a Deliverable is ready for any verification and testing under this clause, including that the Service or Deliverable has successfully completed the Supplier Testing in accordance with clause 10.3(a).

(b) After receiving the Supplier's notice under clause 10.5(a), the Principal will review and evaluate the relevant Deliverables or Service (and, where a Deliverable is or forms part of a Release, test the Deliverable), as required by the Specifications to determine whether the relevant Deliverables or Services meet the applicable Acceptance Criteria.

(c) Without limiting anything in the Specifications, the Supplier is responsible for establishing and maintaining the required test environments and loading all the required test data. The Supplier is responsible for developing, maintaining and providing to the Principal the required automated tests and testing scripts required by the Principal to perform the testing. The Principal may reuse such automated tests and testing scripts as required.

(d) The Supplier will, at no charge to the Principal, make available any testing tools and provide any assistance the Principal requires in order to perform testing, or which the Specifications otherwise require the Supplier to provide.
Such assistance may require the Supplier to train the Principal on the use of the testing tools.

(e) The Principal may conduct additional testing as it determines necessary to verify that a Deliverable or a Service does not contain any Defects.

(f) The System will be progressively delivered and tested, so each Release builds on and where required modifies the previous Release, and then, once it is in a Live Production Environment, replaces the previous Release.

(g) For the purposes of this Agreement, testing of the System will be conducted for each Release according to the required test plans agreed by the parties, and the rights and obligations under this Agreement apply to each Release (including components previously tested in earlier Releases). For clarity, components of the System that are tested in earlier Releases may be re-tested in subsequent Releases. Once the complete System is delivered and implemented, it will be subjected to acceptance tests as a whole, including all components.

10.6 **Principal's Notice of Acceptance**

If the Acceptance Tests demonstrate that:

(a) a Deliverable (other than the System) or a Service is free from Defects and satisfies all the relevant Acceptance Criteria; or

(b) a Release meets the OAP Acceptance Criteria for that Release,

to the reasonable satisfaction of the Principal, then within 10 Business Days of a request by the Supplier, the Principal will issue a Notice of Acceptance to the Supplier for the Release or Deliverable or Service (as applicable).

10.7 **Acceptance Test failure**

(a) A Service or a Deliverable will be taken to have failed an Acceptance Test (and those Acceptance Tests will be taken not to have been completed successfully) if the Acceptance Test demonstrates that the Service or Deliverable does not meet the applicable Acceptance Criteria.

(b) During the Operational Acceptance Period for that Release, if one or more Defects occur which would have prevented any Acceptance Criteria for a Milestone due for completion before the commencement of that period (Earlier Milestone) from being met, then as part of fulfilling the relevant OAP Acceptance Criteria (and without limiting any of the Principal's other rights or remedies under this Agreement) the Supplier must remedy those Defects and conduct regression testing in respect of the System in accordance with the Specifications, and such other testing as the Principal reasonably requires to demonstrate that those Defects have been rectified and the System continues to meet the Acceptance Criteria for the Earlier Milestone.

(c) If the Principal is not reasonably satisfied that a Deliverable or Service meets the applicable Acceptance Criteria, then the Principal may give the Supplier a Notice of Failure, setting out each aspect of the System or Deliverable that is not acceptable, including the reasons why it is not acceptable (to the extent it is reasonably able to do so).
10.8 Correction and restart of Acceptance Tests

(a) On receipt of a Notice of Failure, the Supplier must correct, at its own cost, all Defects in the Service or Deliverable, or other failures of the Service or Deliverable to meet the applicable Acceptance Criteria, within 10 Business Days.

(b) The Principal may conduct or re-conduct the Acceptance Tests (including any testing which the Principal was unable to conduct due to Defects) and raise further Defects or other failures to meet the applicable Acceptance Criteria.

(c) The Principal may extend the testing period to accommodate any delay arising from any rectification, replacement or further Acceptance Tests.

(d) The parties' costs of re-conducting the Acceptance Tests are to be borne solely by the Supplier. For clarity, the only Principal testing costs the Supplier will bear are the additional costs directly arising by reason of retesting required under this Agreement, due to a failure of a Deliverable or Service to meet any applicable Acceptance Criteria.

10.9 Further failure of Acceptance Tests

If:

(a) a Deliverable or Service fails an Acceptance Test carried out under clause 10.1;

(b) where the Deliverable is a Release - there is a failure of the Deliverable to meet the OAP Acceptance Criteria for the relevant Release; or

(c) where the Deliverable is a Release - the Principal is not reasonably satisfied that the Deliverable is operating in accordance with the applicable Specifications,

then the Principal may at its option:

(i) issue a Notice of Failure under clause 10.7 in which case clauses 10.8 and this clause 10.9 will apply to a further round of correction and testing;

(ii) accept the Deliverable or Service, or part of it, by Notice of Acceptance to the Supplier, notwithstanding the failure, for a reduction of the Contract Price as determined by the Principal;

(iii) accept the Deliverable or Service "as is" by Notice of Acceptance to the Supplier, subject to the Supplier completing, at its own cost, a set of procedures (e.g. work-around) required by the Principal to remove the Defects or their impact; or

(iv) reject the Deliverable or Service, or part of it, in which case the Principal will be entitled to:

(A) any Liquidated Damages payable in accordance with clause 10.11;

(B) a refund of any Contract Price paid in respect of the rejected Deliverable or Service; and/or
(C) immediately terminate this Agreement (in whole or in part) for breach by the Supplier under clause 41.1.

10.10 **Practical Completion**

Practical Completion is the stage in the carrying out and completion of a Release (and the Delivery Stage relating to that Release) when:

(a) the Supplier has completed the Delivery Services for that Delivery Stage;

(b) all relevant Acceptance Tests have been completed successfully and the Principal has issued a Notice of Acceptance for the Release and each and every Deliverable supplied or to be supplied as part of that Delivery Stage;

(c) the Operational Acceptance Period for the relevant Release has been completed, the relevant Release has the met the OAP Acceptance Criteria for that Release and the Supplier has provided the Principal with an acceptable plan to rectify any Defects in that Release which remain at the end of the relevant Operational Acceptance Period;

(d) the Supplier has submitted to the Principal an up-to-date VCRM with reference to all test reports demonstrating the relevant Release is fit for Acceptance;

(e) the Supplier has completed all other obligations that the Supplier is required to perform to enable the Principal to use the Deliverables continuously in an operational environment, including the delivery of all applicable Documentation; and

(f) the satisfaction of all other obligations under this Agreement that are a condition precedent to achieving Practical Completion for that Release occurs, to the reasonable satisfaction of the Principal.

Within 10 Business Days of the Supplier giving a written notice to the Principal advising that it has achieved Practical Completion for a Release, the Principal will issue a Notice of Practical Completion to the Supplier for the System setting out the Date of Practical Completion for the Release.

10.11 **Liquidated Damages**

(a) If Practical Completion for Release 1 is not achieved by the relevant Date for Practical Completion, the Supplier must pay to the Principal the Liquidated Damages for the period commencing on the day after the Date for Practical Completion for Release 1 and ending on the earlier of:

(i) the Date of Practical Completion for that Release; or

(ii) the date of termination of this Agreement by the Principal.

(b) The parties acknowledge and agree that the Liquidated Damages:

(i) do not exceed a genuine pre-estimate of the loss that the Principal is likely to suffer as a result of the Supplier failing to meet the Date for Practical Completion for Release 1; and
are in addition to, and do not limit or affect, any other right or remedy the Principal may have in connection with the Supplier failing to meet the Date for Practical Completion for Release 1, and no: does not affect the Principal's right to terminate this agreement under clause 41.1.

The parties acknowledge and agree that neither the liability to pay, nor payment of, Liquidated Damages under this clause in any way limits the liability of the Supplier for, or prevents the Principal from recovering, any loss or damage suffered, incurred or sustained by the Principal by reason of Practical Completion for any Release not being achieved by the relevant Date for Practical Completion, to the extent such loss or damage exceeds in the aggregate the amount of Liquidated Damages which the Supplier is liable to pay under this clause.

(c) The liability of the Supplier for delay in achieving Practical Completion for any Release is not affected by this clause 10.11 and will be determined in accordance with clause 36.

(d) The Supplier acknowledges and agrees that if clause 10.11(a) is found for any reason to be void, invalid or otherwise inoperative so as to disentitle the Principal from recovering the Liquidated Damages, the Principal will be entitled to recover common law damages if Practical Completion for Release 1 is not achieved by the relevant Date for Practical Completion.

10.12 No deemed acceptance

For the avoidance of doubt, none of the following events will give rise to any deemed acceptance of any Release or Deliverable, or waive any rights the Principal has under this clause 10 or otherwise:

(a) the Principal’s failure to issue any Notice of Acceptance, Notice of Practical Completion or Notice of Failure within the prescribed period;

(b) the Principal’s failure to terminate, or termination of, this Agreement (in whole or in part) as a result of the Supplier’s failure to complete any Acceptance Tests in accordance with this Agreement;

(c) the Principal’s or the Supplier’s failure to complete or participate in any Acceptance Tests within the required timeframe; or

(d) use of a Release outside the testing environment.

10.13 Purpose of Acceptance Testing

(a) The Supplier acknowledges that the Principal does not owe any duty to the Supplier to review any Documentation for errors, omissions or compliance with the requirements of this Agreement or to consult with the Supplier or make any comments regarding any Documentation. Accordingly, neither the Principal’s participation in any process for developing any Documentation, nor any review or rejection of, nor any consultation or comments by, nor any Acceptance (including any Acceptance of any non-compliance or Acceptance subject to conditions) or Acceptance of any Documentation will:

(i) relieve the Supplier of any of its obligations under this Agreement;
(ii) lessen or otherwise affect the Supplier's warranties under clause 35 or any other of its liabilities or responsibilities under this Agreement or at Law;

(iii) constitute an acknowledgment by the Principal that the relevant Documentation meets the requirements of this Agreement; or

(iv) constitute a waiver of any of the Principal's rights against the Supplier, whether under this Agreement or at Law.

(b) The Supplier acknowledges and agrees that acceptance tests are not capable of testing for every possible Defect or other requirement of the Acceptance Criteria and that the issuing of a Notice of Acceptance or Notice of Practical Completion does not:

(i) affect the Supplier's obligation to correct any Defects under this Agreement; and

(ii) constitute a waiver of any of Principal's rights.

(c) Without limiting clause 10.13(a) or 10.13(b) above, the Acceptance of any Design Documentation does not constitute an agreement by the Principal that a system complying with that Design Documentation will comply with the Specifications, and is merely an approval to proceed to supply and implement a computer system on the basis of that design.

11 **Manufacturer and Supplier Warranties**

11.1 **Assignment of third party warranties**

(a) If requested by the Principal, the Supplier must assign to the Principal without the need for further consideration, the benefit of all manufacturers' warranties and/or supplier warranties granted to the Supplier by third party suppliers and licensors of the Hardware, Third Party Software (other than Procured Third Party Software and the Principal Supplied Third Party Software) and any other Services.

(b) Each component of Hardware supplied by the Supplier must be subject to a manufacturers' and suppliers' warranty effective from the Acceptance Date for that component of Hardware until the end of the Warranty Period. If requested by the Principal, the Supplier must obtain an extended manufacturers' and suppliers' warranty to the extent possible.

(c) If a manufacturers' or suppliers' warranty in favour of the Supplier is not capable of being assigned to the Principal in accordance with clause (a) the Supplier must, if requested by the Principal, enforce the warranty on behalf of the Principal.

(d) The Supplier must provide the Principal, on reasonable request and in any event within 20 Business Days after request, with any information relating to any manufacturers' or suppliers' warranties.

(e) For the avoidance of doubt, this clause 11 does not limit any other obligation or warranty of the Supplier under this Agreement.
11.2 Warranty Period

(a) The Warranty Period commences on Go Live of Release 1 and continues for the minimum period specified in the Contract Details, and (if there are any Major Defects present in the System at the end of that minimum period) thereafter until such time as there are no Major Defects in the System.

(b) Without limiting any other rights of the Principal under this Agreement, if a Defect in any Deliverable occurs during the Warranty Period, the Supplier must promptly rectify the Defect, at the Supplier’s cost, (including supplying an Update or New Release, if required) in accordance with the Service Levels.

(c) Where an item of Hardware is added to the System or is replaced during the Warranty Period, the additional or replacement item’s Warranty Period will commence on the later of the date on which the additional or replacement item commences service and the date upon which satisfactory completion of any applicable Acceptance Tests occurs.

(e) provide the Supplier's Personnel (in addition to the Project Manager) at the Site to:

(i) make required System configuration changes including New Releases and Updates;

(viii) perform testing on the Software and System and Software Updates; and

(ix) provide any other assistance that the Principal may reasonably require,

(together, the "Operational Support Services").

13.2 Support duration

(a) During the Operational Support Period, the Supplier must provide the Operational Support Services, at the minimum, from Monday to Friday and between 8.30am to 5.30pm.

(b) Notwithstanding any other clauses in this agreement, the duration of the Operational Support Period may be amended at the discretion of the Principal by notice in writing to the Supplier. In the event that there is a change in the duration of the Operational Support Period and such change has an impact on either the cost or timetable to deliver the Services by the Supplier, then the Supplier will be entitled to raise a change request and proposal pursuant to clause 29 of this Agreement.
During the Operational Support Period, the Supplier must ensure that the Principal is able to notify the Supplier of a Defect, problem or issue on a 24 hours and seven days per week basis.

13.3 Response time and resolution time

(a) During the Operational Support Period, the Response time and Resolution time for each of the Severity Levels shall be as specified in Part 4 of Schedule 12.

(b) The Response time and Resolution time are measured from the time an issue is notified to the Supplier by the Principal, and continues until such time as a Response or Resolution is provided by the Supplier.

14 Service Levels

14.1 Service Levels

During the Operations and Maintenance Phase, the Supplier must provide the Services in accordance with, and the System must perform in accordance with, the applicable Service Levels set out in Schedule 12.

14.2 Service Level Rebates

(a) If the Supplier, or the System, fails to meet any of the Service Levels during the Operations and Maintenance Period and the Principal elects to rely on this clause, by notice to the Supplier, the Supplier must pay the Principal, or credit the Principal (at the Principal's option), the applicable Service Rebates.

(b) The Service Rebates will be calculated on a cumulative basis with the maximum aggregate Service Rebate in any month being limited to the Service Rebate Cap.

(c) Service Levels do not apply, and no Service Rebates are available to the Principal, until Practical Completion for Release 1.

(d) Service Rebates:

(i) do not exceed a genuine pre-estimate of the loss that the Principal is likely to suffer as a result of the Supplier failing to meet the applicable Service Levels and will be limited to the Service Rebate Cap; and

(ii) are in addition to, and do not limit or affect, any other right or remedy the Principal may have in connection with the Supplier failing to meet the Service Levels, and whether the Service Level Rebate has been reached or not does not affect the Principal's right to terminate this agreement under clause 41.1.

(e) Neither the liability to pay, nor payment of, Service Rebates under this clause, or any decision by the Principal to issue or refrain from issuing a notice under clause 14.2(a), in any way limits the liability of the Supplier for, or prevents the Principal from recovering, any loss or damage suffered, incurred or sustained by the Principal by reason of the failure of the Supplier to meet the Service Levels, to the extent such loss or damage exceeds in the aggregate the amount of Service Level Rebates which the Supplier is liable to pay under this clause.
14.3 **Service Level Monitoring**

At all relevant times, the Supplier must:

(a) ensure its monitoring and reporting systems interface with the Principal’s service level monitoring system; and

(b) have in place such tools and procedures as are necessary, including those specified in the SWTC,

to measure its performance, and the performance of the System, against the Service Levels.

14.4 **Service Level Reporting**

(a) The Supplier must provide the Principal with a written report within 7 Business Days of the end of each month, setting out all information reasonably required by the Principal in connection with the Supplier’s performance, and the System performance, against the Service Levels.

(b) During the Maintenance and Support Period, these reports must include the amount of any Service Level Rebates that the Principal is entitled to.

(c) Within 7 Business Days of the end of each month after Practical Completion for Release 1, the Supplier must provide to the Principal a written report setting out all information reasonably required by the Principal and as required by the SWTC including details of the Supplier’s performance, and the System’s performance, against Service Levels and the amount of applicable Service Rebates. If the Supplier fails to report its performance and the System’s performance against a Service Level it will be deemed to have failed to meet that Service Level.

14.5 **Performance of obligations**

(a) In performing the Supplier’s obligations under this Agreement, the Supplier must:

(i) comply with industry best practices and for this purpose develop, implement and continuously improve maintenance standards and systems to reflect best practices, including performance standards, appropriate response times and management and control systems; and

(ii) act in a timely and expeditious manner.

14.6 **Service Level Review**

The Principal will conduct an internal review of the Service Levels at the end of the Warranty Period and each year during the Operations and Maintenance Phase. Once the Principal has completed the review, the parties will meet to discuss the outcomes of that review, including any proposed changes to the Service Levels.

14.7 **Consequences of breach of Service Levels**

(a) Subject to clause 41.1(a), if the Supplier or the System fails to meet the Service Levels, the Principal may, on providing at least 10 Business Days’ written notice to the Supplier, cease to acquire the Services the subject of
those Service Levels from the Supplier (on a temporary or permanent basis), and either perform those Services itself or have a third party perform them at the Supplier’s cost.

(b) The cessation of acquiring any Services under clause (a) will not have the effect of invalidating or abrogating any warranty provided by the Supplier under this Agreement.

(c) If the Principal exercises its rights under clause 14.7(a)

the Principal is no longer required to pay the Supplier for the relevant Services.

(d) In addition to clause (a), the Principal may, on written notice to the Supplier, terminate this Agreement (in whole or in part) if the Supplier, or the System, fails to achieve:

(i) the minimum System Performance Criteria; or

(ii) a given Service Level each month in any three consecutive months,

and the Supplier must perform any required Transition-Out Services at no cost to the Principal.

(e) The remedies in this clause 14 are without prejudice to any of the Principal’s rights and remedies under this Agreement or arising at Law.

(f) The Supplier acknowledges and agrees that if the remedies in this clause 14.7 are found for any reason to be void, invalid or otherwise inoperative, the Principal will be entitled to recover common law damages if the Supplier fails to meet the Service Levels.

Part D – General

15 Project Management

15.1 Project management services

Except to the extent that the Specifications provide otherwise, the Supplier is responsible for project managing the Project, including:

(a) liaising with the Principal, Tolling Contractor (Roadside) and WDA as reasonably necessary while carrying out the Project;

(b) ensuring that the Project is delivered in accordance with the Management Plans;

(c) ensuring that the Project is delivered in an efficient and cost effective manner for the Principal and in accordance with industry best practice;

(d) identifying the Deliverables and the responsibilities of each party;

(e) co-ordinating the activities of each party as required under the Management Plans so that they occur with minimum disruption to the normal operations of the Principal; and
(f) preparing for and participating in scheduled quality assurance and audit check points and procedures.

15.2 Supplier to take necessary steps
The Supplier must do all things including to provide all reasonable assistance and information to the Principal and its Personnel that are necessary or desirable for the delivery of the Services and the interoperation of the System with all other components of the Tolling System.

15.3 Reliance
(a) The Supplier acknowledges that the Principal is relying on the Supplier's expertise in preparing the Management Plans and the Delivery Plan to meet the Principal’s requirements and the Supplier’s obligations under this Agreement.

(b) the Principal’s Acceptance of the Management Plans and Delivery Plan will not:

(i) relieve the Supplier of any of its obligations under this Agreement;

(ii) constitute an acknowledgment by the Principal that the Management Plans and Delivery Plan meet the requirements of this Agreement; or

(iii) constitute a waiver of any of the Principal’s rights.

15.4 Project Manager
(a) The Supplier must appoint the Project Manager to manage, on a day-to-day basis, the Project, and who will be responsible for (without limitation) ensuring and managing the performance of the Supplier's obligations in accordance with the Specifications.

(b) The Project Manager must:

(i) assemble and lead the Supplier's project team, and work with the Principal to deliver the Services and Project Objectives; and

(ii) ensure that the Project is delivered in accordance with the Management Plans and Delivery Plan and that any delays are notified and addressed as required by clause 16; and

(iii) be the Supplier's single point of responsibility for delivery of the Services.

(c) The Supplier must ensure that the Project Manager has the necessary skills and experience to perform his or her role and duties.

(d) If the Project Manager becomes unable to perform his or her role or duties, or gives notice of their resignation, at any time during the Project, the Supplier must promptly notify the Principal.

(e) The Supplier acknowledges that the Project Manager will be considered Supplier Key Personnel under this Agreement and the provisions of clause 17 apply in full in respect of the Project Manager.
15.5 Progress reports

(a) The Supplier must monitor and keep the Principal's Representative regularly informed of the progress of the Project in accordance with the requirements set out in the SWTC and the Agreement.

(b) At the end of each month during the Term, the Supplier must provide the Principal with a written report on that progress, setting out:

(i) a narrative summary of the progress of the Project, including any Services performed, Deliverables delivered and Accepted and Milestones commenced or achieved;

(ii) an update to the Gantt chart forming part of the Specifications with status updated by assessment of actual achievements and projection of future progress;

(iii) details of any failure or anticipated failure to achieve any Milestones in accordance with the Delivery Plan, including any delays or other matters that could adversely affect the Project or the timely achievement of the Milestones;

(iv) any recommendations for avoiding or minimising any delays or failures to achieve the Milestones in accordance with the Delivery Plan and other adverse consequences; and

(v) during the Warranty Period, a report on the status of all Defects of which the Supplier is aware, including details of when each Defect was recorded, rectified or proposed to be rectified and any steps taken or proposed to rectify any Defect.

(c) Nothing in a progress report varies the Specifications or any of the Supplier's obligations under this Agreement. To the extent a progress report identifies an actual or possible delay, the Supplier must comply with clause 16.

15.6 Project closure

Once the Supplier has successfully completed the Project, including any required Acceptance Tests (or other acceptance criteria), it must promptly notify the Principal and provide all relevant details and documentation as required by the Principal.

16 Delays

16.1 Progress reviews

(a) If, at any time, in the Principal's opinion, the Supplier is not progressing in accordance with a Management Plan, the Principal may give written notice to the Supplier requiring the Supplier to submit to the Principal within 5 Business Days of such notice a plan and program for corrective action to correct the matter the subject of the notice ("Corrective Action Plan").

(b) The Principal may give notice to the Supplier that the Corrective Action Plan does not satisfactorily address the concerns of the Principal, in which case, the Supplier must amend the Corrective Action Plan accordingly. The Supplier must carry out the Corrective Action Plan in a manner to ensure that it complies with the Management Plan.
16.2 Notification of delays

Within 10 Business Days of the Supplier becoming aware that it may not be able to achieve any Milestone Due Date (as set out in the Delivery Plan) or other date or time required under this Agreement, the Supplier must immediately notify the Principal’s Representative in writing, setting out:

(a) the details of the possible or actual delay, including the cause (whether because of any act or omission of the Principal, the Supplier or any other party, or as a result of a Force Majeure Event);

(b) the Milestone Due Date/s or other date or time required under this Agreement that may be affected;

(c) the effect on the critical path for the programme;

(d) the steps the Supplier intends to take to avoid or minimise the delay;

(e) the period, if any, by which the Supplier considers the date for meeting the relevant obligation should be extended; and

(f) the impact of the possible or actual delay on the Date for Practical Completion for any Release.

16.3 Further updates

(a) The Supplier must update the Principal with information required under clause 16.2 (including any documentation reasonably requested by the Principal) on a fortnightly basis, for delays lasting over 2 weeks, until the Supplier provides its final notice.

(b) The Supplier shall not be entitled to claim a postponement of the date for delivery or date for Acceptance of a Deliverable or Date for Practical Completion for a Release for a period greater than the duration of the delay.

16.4 Supplier delays

(a) If the Supplier notifies the Principal under clause 16.2 of the possible or actual delay, then the Principal may in its sole discretion (subject to clauses 16.5, 16.6, and 16.7, extend the time for meeting the affected obligation(s).

(b) If the Principal does not grant an extension, then:

(i) the Supplier must perform its obligations in accordance with the Delivery Plan and any other required dates or times under this Agreement (as applicable); and

(ii) the Supplier must:

(A) do, at no additional cost to the Principal, all things reasonably necessary to overcome the actual or possible delay, including increasing numbers or average skill or experience level of Supplier Personnel (or both); and

(B) inform the Principal of all solutions and strategies it intends to take to overcome, manage or minimise the delay or the consequences of the delay.
16.5 **Extension for the Principal's delay or event outside the Supplier's control**

Subject to clauses 16.6 and 16.7, the Supplier will be entitled to claim, and the Principal will be required to grant, a reasonable extension of time by which an obligation under this Agreement must be met if:

(a) the Supplier will be delayed in achieving any Milestone Due Date or Date for Practical Completion for a Release;

(b) the Supplier notifies the Principal of the possible or actual delay under clause 16.2;

(c) the delay cannot be avoided without materially varying or increasing resources used by the Supplier; and

(d) the delay is caused by one or more of the following events:

   (i) a failure by the Principal to perform its obligations under this Agreement, (excluding any such failure(s) which result from any act or omission of the Supplier (or any related entity) not expressly permitted or allowed by this Agreement;

   (ii) an act or omission by the Principal, the Principal's Personnel, the Principal's Representative, other Authorities or any of contractors of the Principal (other than the Supplier) and not being an act or omission:

      (A) expressly permitted or allowed by this agreement but excluding any direction which the Principal's Representative purports to give under a provision of this agreement but which was not a direction which the Principal's Representative was entitled to issue under a provision of this Agreement;

      (B) which is within a timeframe expressly permitted, or allowed by the Agreement; or

      (C) to the extent the act or omission is caused or contributed to by a breach by the Supplier of this Agreement or any negligent, or unlawful act or omission of the Supplier or its Personnel.

   (ii) the Supplier not obtaining access to the Site other than where caused by the act or omission of the Supplier or any related entity;

   (iv) the Principal failing to move a Release into a Live Production Environment within 14 days after the date that all entry criteria for the relevant Operational Acceptance Period have been achieved, to the extent the delay in Go Live is not caused or contributed to by any breach of the agreement by the Supplier or any negligent or unlawful act or omission of the Supplier; or

   (v) a Force Majeure Event.

16.6 **Option to require additional resources**

Where the requirements of clause 16.5 are met, but the Date for Practical Completion for the relevant Release can still be met by the Supplier if it increases numbers or average skill set or experience level of Supplier Personnel (or both), the Principal may require the Supplier to increase or vary the Supplier Personnel accordingly, in which case the Principal must pay reasonable additional fees to
compensate the Supplier for its additional costs and the due date or time remains unchanged.

16.7 Delay caused partly by the Supplier
The Supplier's entitlement to an extension of time will be reduced to the extent that it has not taken all reasonable steps to minimise the delay. Where more than one event causes concurrent delays to a Milestone Due Date and at least one of those events is not an event referred to in clause 16.5, then to the extent that the delays are concurrent, the Supplier will not be entitled to an extension of time to the Milestone Due Date.

16.9 Unrequested extensions of time
The Principal may at any time, in its absolute discretion, extend the date by which an obligation under this Agreement must be met for any reason, whether or not the Supplier is entitled to or has requested such an extension.

16.10 Reimbursement of Supplier
(a) If the Supplier is granted an extension of time under clause 16.5 or the Principal exercises its rights under clause 16.9, the Principal will reimburse the Supplier for:

(i) the incremental costs reasonably incurred by the Supplier in respect of any additional travel required as a direct result of the delay, provided that such travel is restricted to travel for any Supplier Personnel which is reasonably required for the purposes of the project at the relevant time;

(ii) the incremental costs reasonably incurred by the Supplier in respect of any additional accommodation for those Supplier Personnel required as a direct result of the delay; and

(ii) the incremental cost of any time spent by those Supplier Personnel as a direct result of the delay, calculated at Time and Materials Rates, provided that such costs are limited to a reasonable duration of time agreed by the parties (acting reasonably) (or such further period as the Customer requires the relevant Personnel to remain present to avoid travel costs), and in all cases to the extent those Personnel cannot reasonably be utilised by the Supplier in the performance of other work (whether on the Project or otherwise).

(b) The costs claimable by the Supplier in accordance with clause 16.10(a) are subject to:

(i) a daily cap of $[redacted] per person per night for accommodation; and

the Principal may, at its option, take control of the Affected Services (which, in the case of clauses 43.1(a)(iii) to 43.1(a)(vi), means all Services over which the Principal elects to take control) and, in doing so, may take any action as is reasonably necessary to restore the Affected Services, including by itself performing or engaging a third party supplier to provide such services.
