

I would like to register a new taxi to my current licence, where can I do this?

You will need to attend your nearest Service NSW and provide:

- An original or copy of the taxi licence
- A letter from the person named on the taxi licence (or agent, with a Power of Attorney) approving the transaction
- A copy of the lease.

I'm interested in registering a new vehicle as part of my taxi fleet, what is the new process for me to do this?

You will need to attend your nearest Service NSW and provide:

- Proof of identity (POI)
- Proof of Registration Entitlement (which is a letter from the Point to Point Commission)
- Compulsory Third Party (CTP) insurance (except for trailers)
- A vehicle inspection report from an Authorised Unregistered Vehicle Inspection Station
- An original or copy of the taxi licence
- A letter from the person named on the taxi licence (or agent, with a Power of Attorney) approving the transaction
- A copy of the lease.

I've already registered a new plate under my taxi licence but I need to put the plate on hold. What is the process I have to follow?

You will need to attend your nearest Service NSW and provide:

- An original or copy of the taxi licence
- A letter from the person named on the taxi licence (or agent with a Power of Attorney) approving the transaction
- A copy of the lease

Under my taxi licence I have a plate that is on hold, I would now like to access it. How do I do this?

You will need to attend your nearest Service NSW and provide:

- An original or copy of the taxi licence
- A letter from the person named on the taxi licence (or agent with a Power of Attorney) approving the transaction
- A copy of the lease.

I own a taxi, do I still need to obtain a blue slip? If so, where do I get one from?

We no longer call it a blue slip, however in order to register a vehicle as a taxi you will need to attend a NSW Authorised Unregistered Vehicle Inspection Station and obtain a report confirming the identity of the vehicle and that the vehicle meets the required safety and design standards.
