Temporary closure of Middle Falbrook Bridge over Glennies Creek from Wednesday 28 February

The NSW Government is funding the upgrade of Middle Falbrook Bridge as a part of its $145 million commitment to the Bridges for the Bush Program.

Roads and Maritime Services is carrying out work to restore and strengthen Middle Falbrook Bridge. A full bridge closure is required to replace the bridge spans and construct a new concrete abutment. This work involves large equipment and cannot be carried out while the bridge is open to traffic.

A full bridge closure will be in place for three weeks from 6am on Wednesday 28 February to 6pm on Monday 19 March, weather permitting. We have included information about the detour arrangements below.

In preparation for the closure, large cranes and equipment will arrive at the site from Wednesday 7 February and we will be working between 7am and 6pm from Monday to Friday and between 8am and 1pm on Saturday. The bridge will remain open to traffic during this time and we will let you know in advance if we need to do any work outside these times.

Following the bridge closure, work will continue between 6am and 5pm from Monday to Friday with the project expected to be completed by late June 2018.

How will the work affect you?
The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Traffic changes
There will be some temporary traffic changes to make sure the work zone is safe. The speed limit will be reduced to 40 km/h for the duration of the project and traffic lights or traffic control will be in place.

From Wednesday 28 February to Monday 19 March a full bridge closure will be in place. Motorists will be detoured via Glennies Creek Road and the New England Highway to the east and via Stoney Creek Road and Bridgman Road to the south, as shown in the enclosed map.

School bus timetables will be affected by the closure. Detailed information on alternative transport arrangements will be made available by CDC Buses to schools and parents affected by the bridge closure. For more information about the changed bus timetables contact CDC Buses at their Singleton Depot on (02) 6572 2555 or hvbinfo@cdcbus.com.au.
Please follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App for iPhone, iPad and Android.

**Contact**

If you have any questions, please contact our Project Manager, David MacGregor on 02 4908 7643 or david.macgregor@rms.nsw.gov.au.
