Detours for road upgrade work on the Golden Highway, Denman, on Tuesday 4 April and Wednesday 5 April

The NSW Government is providing $109 million funding, with an additional $24 million funding from the Australian Government, for a package of upgrades on the Golden Highway.

Roads and Maritime Services will be upgrading the Denman level crossing and Mangoola Road intersection on the Golden Highway to improve safety for motorists. Work involves upgrading the level crossing to a signalised crossing and road widening to improve turning movements at Mangoola Road.

A temporary closure of the highway is required for the upgrade of the level crossing. The Golden Highway will be closed between the Denman level crossing and the Rosemount Road intersection from 6am on Tuesday 4 April to 6pm on Wednesday 5 April.

Following the level crossing closure, work will start on the Mangoola Road intersection upgrade. We will be working between 7am and 5pm from Monday to Friday and expect to complete the project by June 2017, weather permitting. We will let you know in advance if we need to do any work outside these times.

Detour arrangements

Detours arrangements will be in place for all vehicles during the level crossing closure. Motorists travelling in both directions will be detoured via Rosemount Road, Virginia Street and Crinoline Street. Access will be maintained for residents and emergency services.

The detour is expected to add around five kilometres to journeys, which is about five minutes travel time. We have included a map to show the detour route.

Electronic message signs will be in place to give advance notice of the changed traffic conditions. Please keep to speed limits and follow the direction of traffic controllers and signs.

Oversized vehicles

There are restrictions on Rosemount Road for loads over 2.5 metres wide. Oversized vehicles are encouraged to plan their journeys outside the closure times.

Traffic changes

During the Mangoola Road intersection upgrade there will be some temporary traffic changes to ensure the work zone is safe. Lane closures and a reduced speed limit will be in place and may affect travel times.
For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
