Night work on southbound Hexham Bridge, Hexham from Monday 25 March

Roads and Maritime Services are carrying out essential maintenance work to ensure safe and reliable operation of the bridge.

Roads and Maritime Services will carry out the work, which includes inspecting and testing the electrical, mechanical and emergency system components on the bridge. Work will also be carried out to lubricate the counterweight ropes and repair bridge access.

We will be working between 8pm and 4.30am and expect to complete the work in two shifts, weather permitting. We will let you know in advance if we need to do any work outside these times.

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

The southbound bridge will be closed during the work. All traffic will be diverted onto the northbound bridge, which will operate with one lane in each direction.

Closure of the pedestrian bridge will be required while the work is carried out. Traffic control will be on site to ensure safe escort for pedestrians across the bridge while the pedestrian bridge is closed.

The bridge will not be open to marine traffic while the work is carried out.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Manager, Natasha Anderson on 02 4908 7803 or Natasha.anderson@rms.nsw.gov.au.

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 02 4908 7803.
