Maintenance work on the New England Highway at Blandford from Saturday 28 May

The NSW Government is funding this $25 million program of work to improve safety and upgrade sections of the New England Highway between Aberdeen and Willow Tree.

Roads and Maritime Services will be carrying out maintenance work on the New England Highway north of Haydons Lane. The NSW Government is providing $25 million for a four year program of work including $1 million this financial year to start planning and delivering the program.

The first package of work will be carried out near Blandford and involves repairing the road surface on the New England Highway for approximately 400 metres between Haydon’s Lane and White Street.

Work is scheduled to start on Saturday 28 May between 7am and 5.30pm. We will then be working Monday to Friday (excluding public holidays) between 7am and 5.30pm from Monday 30 May and expect to complete the work in two weeks, weather permitting.

We will let you know in advance if we need to do any work outside these times. Equipment to be used includes, but is not limited to, profilers, trucks, asphalt pavers, rollers and line marking equipment.

How will the work affect you?
There will be some noise associated with this work. We will make every effort to minimise noise by turning off machinery when not in use.

Traffic changes
There will be some temporary traffic changes to make sure the work zone is safe.

Lane closures will be in place and may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App for iPhone, iPad and Android.

Contact
If you have any questions, please call our Project Manager Geoff Collison on 02 6575 2311 or email geoff.collison@rms.nsw.gov.au. For more information on our projects, visit rms.nsw.gov.au

Thank you for your patience during this important work.
