Flood improvement work on Oxley Highway, Carroll from Wednesday 13 June

The NSW Government is funding a $5 million project at Hoss Causeway near Gunnembene Lane to raise the road level to ensure it stays open longer during floods.

Roads and Maritime Services has engaged Gunnedah Shire Council to carry out the work, which will involve raising the road level of the Oxley Highway and Gunnembene Lane.

The improvements will:

- Increase the flood immunity at Hoss Causeway and Tommy Swamp to one-in-five year standard
- Reduce the frequency of the Oxley Highway being cut by floodwater
- Minimise future maintenance requirements.

We will be working between 7am and 5pm from Monday to Friday and expect to complete the project in four months, weather permitting. We will let you know in advance if we need to do any work outside these times.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

We are building a temporary side road along the Oxley Highway for traffic to use while we carry out the work (see map).

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact Gunnedah Shire Council’s Project Manager, Richard Baxter on 02 6740 2100 or richardbaxter@infogunnedah.com.au.

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
Hoss Causeway flood improvements, Carroll
