Foxground and Berry bypass - Changed traffic conditions on the Princes Highway, north of Berry from late April 2016

The NSW Government is funding this $580 million project to improve road safety and traffic efficiency. The bypass is expected to be complete mid 2018, weather permitting.

Work on the Foxground and Berry bypass is progressing well with a two kilometre section of new highway and the highway on ramp north of Berry ready for the next traffic change.

From late April 2016 (weather permitting), traffic will be temporarily diverted through this section of highway in one or two stages.

We have included a map overleaf to help explain the changed traffic conditions.

In preparation for the traffic changes, construction work will generally take place during standard working hours. However, to minimise the impact on traffic and ensure the safety of workers and motorists, some night work is planned between 6pm and 7am for up to five nights before this traffic change occurs.

How will the work affect you?
There may be some noise associated with this work. We will make every effort to minimise noise.

Traffic changes
Motorists, (one lane in each direction), will be temporarily moved onto the newly built southbound lanes at Gembrook Lane and then switched to the northbound lanes near Tindalls Lane bridge before entering Berry along the ultimate northbound on ramp. This will allow construction work to progress on the project in this area. Please keep to speed limits and follow the direction of traffic controllers and signs at all times.

Contact
Should you have any questions about this work, please contact the community relations team on 1800 506 976 (toll free, press 2) or email FoxgroundandBerrybypass@fultonhogan.com.au.

Thank you for your patience during this important work.
CHANGED TRAFFIC CONDITIONS – on the Princes Highway between Gembrook Lane and north Berry

- Highway traffic will be diverted to new southbound lanes.
- Temporary junction for Tindalls Lane.
- Property access only.
- Highway traffic will travel under Tindalls Lane bridge and moves to new northbound lanes.
- Highway traffic travels under the new bridge at Berry.
- One lane in each direction.

TO NOWRA via existing Princes Highway and Queen Street.
