Foxground and Berry bypass – traffic changes around the Berry southern interchange.

The NSW Government is funding this $580 million project to improve road safety and traffic efficiency.

Work is progressing well on the Berry southern interchange with the two lane local road connection between Queen and Victoria streets expected to open to motorists from Friday 15 September 2017 (weather permitting).

To allow us to safely finish building the new roundabout at Kangaroo Valley Road and Queen Street, a temporary closure of Queen Street is required. A detour for motorists will be in place.

How will the work affect you?
For four weeks from Friday 15 September 2017, a detour will be in place via the new local road connection for motorists accessing Kangaroo Valley Road, travelling to and from Berry. Please see map overleaf.

To help assist traffic flow, traffic control will be in place at the intersection of George and Victoria streets during school zone hours, from 8am to 9:30am and 2:30pm to 4pm. During the October long weekend, Queen Street will re-open to help assist with the holiday traffic volumes. After the long weekend, the detour will be put back in place to safely complete the roundabout.

Contact
For further information about this work, please contact the community relations team on 1800 506 976 (press 2) or email FoxgroundandBerrybypass@fultonhogan.com.au. Thank you for your patience during this important work.
