The $310 million project will deliver approximately 7.5 kilometres of upgraded highway. The new highway will generally follow the existing road alignment and will include two new interchanges that will provide access to Gerringong and Gerroa. A posted 100 km/h speed limit will be in place along most of the upgrade upon completion.

**Key activities as part of the detailed design (January to August, 2012)**

- Field investigations including survey of utility locations, soil testing, heritage and drainage assessments.
- Additional consultation with the Aboriginal community to determine the significance of Aboriginal objects and/or places within the project area.
- Discussions with affected landowners about geotechnical and survey investigations, property adjustments and access during construction.
- Finalising the alignment of the Princes Highway and the access road design details.
- Design of bridges, retaining walls, drainage structures, lighting, noise walls, pavements and landscaping.
- Developing plans for managing construction staging, community/stakeholder communications and participation, environment, traffic, safety and heritage.

As the RMS contractor, Fulton Hogan commenced the detailed design in January. Construction work is expected to start in the second half of 2012, with completion expected in the first half of 2015, weather permitting.

**Detail design display for comment**

You are invited to a display on 25 and 26 May, 2012 at Gerringong Town Hall from 10am – 4pm. This display will provide information on the road alignment and the urban design and landscape plans that are currently in progress. This detailed design will be finalised mid 2012. We will also be keeping the community informed through the RMS website, RMS Berry project office, advertisements and community notifications.

**Have your say**

Fulton Hogan and RMS invite your comments on the detailed design. Your feedback will be considered as we finalise this design. Please fill in the Have Your Say form and send to the following address by Friday 22 June 2012.
