

Cabarita Wharf Car Park Improvements

Outcome of community consultation

AUGUST 2018 COMMUNITY NOTIFICATION

In March 2018 we invited your comments on the proposed Cabarita Wharf car park improvements which would provide 15 new car spaces, a new retaining wall and a new turning circle. Comments received will help to inform the addendum to the Review of Environmental Factors which outlines the details of the proposed upgrade, potential impacts, and how these will be managed. We received comments from 16 individuals and one community group. Those who provided comments spoke about Aboriginal heritage, accessibility, car park capacity, litter management, safety, shade and shelter, traffic management, trees and construction timing.

A consultation report summarising and responding to all comments received has been prepared and can be viewed at rms.nsw.gov.au/wharfupgrades.

Next steps

We are in the process of carrying out Aboriginal Heritage investigations in and around the car park. The results of these investigations will inform the final design and program of works. We will continue to keep the community updated regarding the car park upgrade.

If you have any questions, please contact the wharf upgrade project team on **1800 770 973** or email WharfUpgradeProgram@rms.nsw.gov.au.

Wharf upgrade update

Work is progressing well and ferry services are now operating from the new pontoon.

Work is continuing on site to remove existing and temporary wharf structures, install new structures and to improve landside access to the wharf.

Customers will continue to enter the wharf from the interchange in the same location and there will be no timetable changes or interruptions to ferry services.

The existing Cabarita Wharf car park

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Roads and Maritime Services on **1800 770 973**. The interpreter will then assist you with translation.
