Project update – Major work finishing on the Sydney Harbour Bridge southern toll plaza precinct

The NSW Government is funding an upgrade to the Sydney Harbour Bridge southern toll plaza precinct to improve safety, simplify traffic movements and improve bus connections to the city.

Roads and Maritime Services is moving into the final stage of this project which will see the traffic lanes in their final arrangement. We have completed all major work within the site compounds on the bridge with the upcoming traffic switch removing all site compounds within the project area.

Upcoming traffic switch

We will make changes to the work area between Friday 2 March and Monday 5 March, weather permitting. The final traffic arrangement will be in place by the morning of Saturday 3 March.

Work over this weekend will involve:

- removing the barriers of the site compounds
- removing and replacing asphalt
- line marking
- continuing to install light poles at the intersection of York and Grosvenor Streets.

The final lane arrangements will see a change of conditions for vehicles heading south into the city from the Sydney Harbour Bridge. The key change is for motorists heading to York and Grosvenor Streets in the morning peak.

Our animated driver scenarios will help you understand the changes and plan your trip. These will be published on our website at rms.nsw.gov.au/sydneyharbourbridge.

Please follow the variable wayfinding signage on the new gantries to help you move through the area.

Finishing work

To complete the project we will still need to:

- replace concrete slabs and install asphalt on the Western Distributor
- install a light pole at the intersection of York and Grosvenor Streets.

Finishing work will be carried out between Monday 5 March and Friday 4 May, excluding public holidays, weather permitting.

Our working hours will be between 9pm and 5am. We will continue to work no more than five nights each week, providing two nights of respite.

Noise

There will be some noise associated with this work. We will make every effort to minimise its impact by using less noisy work methods and completing noisier work before midnight.

Temporary traffic changes

There will be some temporary traffic changes to ensure the work zone is safe. Please follow the direction of traffic controllers, traffic signs and keep to reduced speed limits.

For the latest traffic updates, please call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
