Investigation work for the Sydney Harbour Bridge Southern Toll Plaza Precinct Upgrade project

The NSW Government is funding investigation work to inform this project which includes removal of the southern toll booths and realignment of lanes.

Roads and Maritime Services will be carrying out field investigation work, which includes surveying and locating underground services through pot holing and scanning the road surface.

Work will be carried out on the southern end of the Bradfield Highway and at the intersection of York and Grosvenor Streets.

This work will take 40 shifts to complete between Monday 1 August and Monday 14 November, weather permitting. Our working hours will be from 9pm to 5am.

We will also carry out day work from 7am to 6pm between Mondays to Sunday.

How will the work affect you?

There will be some noise associated with this work. We will make every effort to minimise noise by arranging the work in stages so you will not be affected for more than two nights a week.

We will also complete noisier work by 11pm.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Lane closures will be in place during night work and may affect travel times. Pedestrian footpaths will remain accessible at all times during the work. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
