Week commencing Monday 25 December:

Sydney Harbour Bridge southern toll plaza precinct upgrade

The NSW Government is funding this upgrade to improve safety, simplify traffic movements and improve bus connections to the city.

Roads and Maritime Services will continue work at the southern toll plaza precinct this week. Our day working hours will be between 7am and 6pm from Wednesday to Sunday.

We will also work five nights a week. Night work hours will be from 9pm to 5am. Planned night work activities for this week will include:

- concrete slab replacement on the Western Distributor, this will include saw cutting and jackhammering
- installing movable medians at the intersection of York and Grosvenor streets, this work will involve the use of excavators and concrete pouring
- upgrading the drainage at the intersection of York and Grosvenor streets, this will involve the use of excavators and movement of plant on site.

We will not work between 6pm Sunday 24 December and 7am Wednesday 27 December.

There will be some noise associated with our work. We will make every effort to minimise its impact by using less noisy work methods and completing noisier work before midnight.

Please note that due to program changes, we will no longer be increasing our work area over the Christmas and New Year period.

There will be some road closures in place during this period. Motorists are advised to follow all directions on the electronic message signs and refer to the Sydney Harbour Bridge Southern Toll Precinct webpage for up to date information.

We apologise for any inconvenience this had caused and wish you a happy holiday.

If you have any questions about this work, please call the Sydney Harbour Bridge Projects Team on the 24 hour hotline 1800 677 700 or email sydneyharbourbridgeprojects@rms.nsw.gov.au.

Thank you for your patience during this important work.
