Week commencing Monday 26 February:

Sydney Harbour Bridge southern toll plaza precinct upgrade

The NSW Government is funding this upgrade to improve safety, simplify traffic movements and improve bus connections to the city.

Roads and Maritime Services will continue work at the southern toll plaza precinct this week. We will work five nights a week. Night work hours will be from 9pm to 5am.

Planned night work activities for this week will include:

- concrete slab replacement on the Western Distributor, this will include sawcutting and jackhammering
- installing traffic signals at the intersection of York and Grosvenor streets, this work will involve the use of excavators and drilling
- removing and replacing asphalt on the Western Distributor.

Upcoming traffic switch

We will make changes to the work area between Friday 2 March and Monday 5 March, weather permitting. The final traffic arrangement will be in place by the morning of Saturday 3 March.

Work over this weekend will involve:

- removing the barriers of the site compounds
- removing and replacing asphalt
- line marking
- continuing to install light poles at the intersection of York and Grosvenor Streets.

There will be some noise associated with this work. We will make every effort to minimise its impact by using less noisy work methods and completing noisier work before midnight.

If you have any questions about this work, please call the Sydney Harbour Bridge Projects Team on the 24 hour hotline 1800 677 700 or email sydneyharbourbridgeprojects@rms.nsw.gov.au.

Thank you for your patience during this important work.
