Week commencing Monday 2 January 2017: Sydney Harbour Bridge southern toll plaza precinct upgrade

The NSW Government is funding this upgrade to improve safety, simplify traffic movements and improve bus connections to the city.

Roads and Maritime Services has successfully carried out preparatory work in the southern toll plaza precinct this week to establish the traffic diversion and work site.

From Monday 2 January 2017 until Saturday 7 January 2017, we will start most of the work within the work site to remove the existing southern toll plaza booths. Our work hours are 7am to midnight.

This work includes transporting machinery, including cranes, elevated work platforms and excavators, to and from site to safely remove and dismantle the existing large toll booth structure. The dismantled equipment will be carefully transported from site and disposed of appropriately.

We will need to do four shifts from midnight to 7am. Lane closures will be required at this time to allow the crew to safely access and dismantle a section of the booths located outside the work site. This work cannot be done during the day due to the high volumes of traffic in this area.

If you have any questions about this work, please call the Sydney Harbour Bridge Projects Team on 1800 581 595 or email sydneyharbourbridgeprojects@rms.nsw.gov.au

For more information on our projects, visit rms.nsw.gov.au/sydneyharbourbridge.

Thank you for your patience during this important work.
