Week commencing Monday 4 December:
Sydney Harbour Bridge southern toll plaza precinct upgrade

The NSW Government is funding this upgrade to improve safety, simplify traffic movements and improve bus connections to the city.

Roads and Maritime Services will continue work at the southern toll plaza precinct this week. Our day working hours will be between 7am and 6pm from Monday to Sunday.

We will also work five nights a week, night work hours will be from 9pm to 5am. Planned night work activities for this week will include:

- Concrete slab replacement on the Western Distributor, this will include sawcutting and jackhammering.
- Installing traffic signals at the intersection of York and Grosvenor streets, this work will involve the use of excavators and drilling.
- Removing and replacing asphalt on the Western Distributor, this will involve milling and resheeting the road.

We will also make changes to our site compound on the southern toll plaza precinct this week. Minor adjustments will be made to the northbound lanes on Friday 8 December; the updated arrangement will be open to traffic by AM on Monday 11 December. Motorists are advised to follow all directions on the electronic message signs when driving through the project area.

Lane capacity through the project area will remain the same, including during AM and PM peak periods.

There will be some noise associated with this work. We will make every effort to minimise its impact by using less noisy work methods and completing noisier work before midnight.

If you have any questions about this work, please call the Sydney Harbour Bridge Projects Team on the 24 hour hotline 1800 677 700 or email sydneyharbourbridgeprojects@rms.nsw.gov.au.

Thank you for your patience during this important work.
