First gantry installation for the Sydney Harbour Bridge and Tunnel tolling upgrade on 18 July

The NSW Government is delivering this essential tolling upgrade to improve tolling reliability and future capacity.

Roads and Maritime Services is upgrading the tolling infrastructure on the Sydney Harbour Bridge and Sydney Harbour Tunnel to ensure its ongoing reliability and future capacity. The upgrade involves the installation of tolling gantries in these locations:

- **Toll point 1** – over the southbound lanes of the Warringah Freeway, north of Mount Street
- **Toll point 2** – over the Eastern Sydney Harbour Bridge on-ramp from Mount Street
- **Toll point 3** – over the Western Sydney Harbour Bridge on-ramp from Mount Street
- **Toll point 4** – over the Sydney Harbour Bridge on-ramp from High Street

Work started on 7 June and is due to be completed by the end of December 2016, weather permitting.

**What's happening now?**

Toll point 4 is the first gantry to be installed on the High Street on-ramp as indicated in the artist's impression and the location map below. This single span gantry will be installed overnight on **Monday 18 July**, weather permitting. This work may take up to two shifts of night work to complete.

Working hours at night will be **10pm to 5am**. While noisier activities will be completed before midnight wherever possible, general site activity including reversing tones will occur for the duration of the shift.

Access to buildings, driveways and pedestrian footpaths will be maintained at all times.

Please note the gantry will not be operational until December when all gantries and equipment have been installed and tested. Before testing of the tolling equipment starts later this year, the community and motorists will be provided with advance notice.
Traffic changes

Lane closures and detours may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
