Why plan to improve local streets?

The Lane Cove Tunnel may cause changes in traffic volumes and behaviour. The RTA is required to prepare plans for these local streets in consultation with the community. If there are no changes in traffic on local streets due to the Lane Cove Tunnel, then local street improvements do not need to be implemented.

IDEAS FOR LOCAL STREET IMPROVEMENTS

Cammeray and Neutral Bay

Your ideas for local street improvements following the opening of Lane Cove Tunnel

OCTOBER 2006

Comments are welcome before Friday 17 November 2006.

This draft plan is a consultation tool available on the RTA website: www.Cameray.an

Public comments are invited below:

Comments are welcome before Friday 17 November 2006.

The Lane Cove Tunnel Project includes:
- Two 3-kilometre road tunnels linking the M4 Motorway at Homebush with the Gore Hill Freeway at Artarmon.
- New lanes on the Gore Hill Freeway.

The project is currently contracted to open in 2007. Residents, local government and the RTA have been working on plans to protect local residential streets.
