ANCILLARY WORKS FOR CONSTRUCTION INCLUDING,
- Provision of a new connection at Aquatic Drive
- Widening of Warringah Road from west of intersection with Frenchs Forest Road to south of Frenchs Forest Road and Allambie Road
- Upgrades to intersections with Forest Way, Fitzpatrick Avenue to east of Allambie Road
- Roadwork on Forest Way at the intersection with Forest Way, generally from west of Forest Way through to north of the New Northern Beaches Hospital
- Upgrades to intersections with Forest Way, generally from west of Forest Way through to north of Allambie Road
- Widening of Hilmer Street and Wakehurst Parkway at level 2, 5 Wilson Street, Newtown
- Stable utilisation strategies, including water, sewer, telecommunication, electricity and gas services
- Subsurface works for constructing infrastructure, but not limited to, construction components and stockpile sites.

A detailed assessment of the Stage 2 Network Enhancement Work is the subject of a separate EIS which will be displayed for community comment by mid 2015.

EIS display locations
Printed copies of the EIS are available to view at the following locations during the exhibition period:
- Nature Conservation Council
  Level 2, 5 Wilson Street, Newtown
- Warringah Council
  124 Warringah Road, Dee Why
- Dee Why Library
  725 Pittwater Road, Dee Why
- Belrose Library
  Gemini Place, Belrose
- Forestville Library
  6 Darley Street, Forestville
- Warringah Mall Library
  Shop 650, 2nd Floor, Warringah Mall, 145 Old Pittwater Road, Brookvale
- Department of Planning and Environment Information Centre
  23-33 Bridge Street, Sydney
- Roads and Maritime Services (Roads Head Office)
  Level 9, 101 Miller Street, North Sydney
- A full copy of the EIS or CD can be made available on request by contacting us on 1300 367 459 or nhrnswaid@mns.wnsw.gov.au or by downloading from DP&E website.

Community information sessions
We encourage you to find out more about the project and meet our team at one of our two community information sessions. A formal presentation will not be given, so please feel free to drop in at any time during these sessions:
- Saturday 8 November, 1pm to 5pm
  Forestville Memorial Hall
  Corner of Shirley Street and Warringah Road, Forestville
- Tuesday 11 November, 5pm to 8pm
  Galston Function Centre
  5 Grattan Crescent, Frenchs Forest

Have your say
We welcome your feedback on the EIS and invite you to make a formal submission to DP&E.

To make a submission, use the online form on the DP&E website at www.majorprojects.planning.nsw.gov.au/EIS-exhibition or by post to Roads and Maritime Services, Road Connectivity and Network Enhancement Project. Your submission must reach DP&E by 21 November 2014. Before making your submission, please read the Privacy Statement at planning.nsw.gov.au/privacy. DP&E will publish your submission on its website in accordance with the privacy statement.

Or via:
Director Infrastructure Assessments
(Application Number 551 14 8434)
Planning Services, Department of Planning and Environment
Sydney NSW 2001

DP&E requests that your submission includes:
- your name and address, at the top of your letter or proposal
- the name of the application and the project
- your name and address, at the top of your letter
- the reasons why you support or object to the proposal
- any additional information before publication, please make this clear at the top of your letter
- your personal information before publication, please make this clear at the top of your letter
- a statement on whether you support or object to the proposal
- a declaration of any political or financial donations made in the previous two years
- any other information before publication
- for a submission form, go to planning.nsw.gov.au/donations

Written submissions must be received by DP&E by 21 November 2014.

What are the next steps?
Following exhibition of the EIS, Roads and Maritime will consider all submissions received and respond to issues in a revised submission to DP&E. The submissions report will be submitted to DP&E and will inform consideration of approval by the NSW Minister for Planning.

If approved by the Minister for Planning, the project would be constructed and will be tendered in accordance with the provisions of the EIS, the submissions report and the conditions of approval. Communication with the community would be ongoing throughout construction.

In response to community feedback, we are investigating options to inform the development of an environmental assessment process for Stage 2 Network Enhancement Work. The proposed road upgrade along Warringah Road through Dee Why.

We are committed to finding the best solution to enhance the road network and improve access through the precinct.

Roads and Maritime Services is delivering the road upgrades in two stages. Stage 1 will provide essential access for the Northern Beaches Hospital and Stage 2 will help to increase capacity of the road network and reduce congestion.

Further information
For more information or queries about the project, please contact us:
Phone: 1300 367 459
Email: nhrnswaid@mns.wnsw.gov.au
Web: www.majorprojects.planning.nsw.gov.au

To make a submission, use the online form on the DP&E website at www.majorprojects.planning.nsw.gov.au.

Thank you to everyone who provided feedback in March and August this year. We have been able to make a number of improvements to our proposal based on your suggestions. You can view and make a submission to DP&E, allow left and right turns.

Planning approval process
The project is being assessed in stages:
- Stage 1 – Includes the Northern Beaches Hospital Connectivity Work which aims to enhance the existing road network to support the opening of the Northern Beaches Hospital.
- Stage 2 – Includes the Northern Beaches Hospital Network Enhancement Work which is directed towards broader network capacity enhancements, particularly along Warringah Road.

Each of the stages and the Concept Proposal, which provides an overview of the whole project, are being assessed in accordance with Part 5.1 of the Environmental Planning and Assessment Act 1979.

Proposal Concept and Stage 1 now on display
We have prepared a Environmental Impact Statement (EIS) for the Concept Proposal and the Stage 1 Connectivity Work. This EIS outlines the key features of the proposal and the potential environmental, social and economic impacts during construction and operation. Importantly, it also outlines measures to minimise and manage potential impacts.

The NSW Department of Planning and Environment (DP&E) has placed the EIS on public exhibition from 22 October 2014 to 21 November 2014.

You can view and make a submission to DP&E on the EIS via the Department of Planning and Environment website at www.majorprojects.planning.nsw.gov.au.

The exhibition provides a vital opportunity for you to have your say.
What are the key features of the Stage 1 Connectivity Work?

1. Widening and intersection upgrades along sections of Forest Way between Warringah Road and south of Adams Street, including providing a right turn bay for traffic turning from Forest Way into Naree Road.

2. Upgrading the existing bus bay in front of the Forestway Shopping Centre on Forest Way to allow two buses to stop within the bay.

3. Widening Naree Road/Frenchs Forest Road West from two to four lanes.

4. Widening Frenchs Forest Road East from Wakehurst Parkway to Allambie Road from two to four lanes.

5. Improvements to the intersection of Frenchs Forest Road East and Nandi Avenue, allowing left and right turns.

6. New traffic lights with signalised pedestrian crossings at the intersections of:
   a. Forest Way and Naree Road
   b. Naree Road, Rabbett Street and Frenchs Forest Road West
   c. Frenchs Forest Road West and the new access to the hospital opposite Gladys Avenue
   d. Frenchs Forest Road East and Romford Road
   e. Frenchs Forest Road East, Patanga Road and Allambie Road.

7. Widening and upgrading the intersection of Frenchs Forest Road with Wakehurst Parkway.

8. Widening Wakehurst Parkway from about 330 metres north of the intersection with Frenchs Forest Road to the intersection with Warringah Road.

9. New bus priority measures along approaches and departures to the Frenchs Forest Road intersection with Wakehurst Parkway.

10. Widening Allambie Road to the north of the intersection with Warringah Road to include an additional turning lane into Frenchs Forest Road East from Allambie Road.

11. Widening and upgrading the intersection of Warringah Road and Allambie Road to include an additional right turn lane into Allambie Road from Warringah Road.

12. Widening Warringah Road from approximately 700 metres east of the intersection with Allambie Road and Courtley Street.

13. New traffic lights, to be triggered by buses only, to enable buses to cross the eastbound lanes of Warringah Road to enter Frenchs Forest Road East from the median lane on Warringah Road in the westbound direction.

14. A left-in and left-out access on Warringah Road opposite Hiller Street to provide an additional access point to the hospital.

15. Retain keep clear at Bantry Bay Lane.

This map refers to the Stage 1 Connectivity Work only and does not include details of the Stage 2 Network Enhancement Work. Maps are indicative images only.
