Night improvement works on James Ruse Drive, Parramatta – Pinch Point Program

Roads and Maritime Services will carry out essential night improvement works on James Ruse Drive at the Hassall Street intersection from Monday 28 April.

To minimise traffic disruptions, Roads and Maritime will carry out this work from **9pm to 5am** between **Monday 28 April** and **end of January 2015**, except **Sundays and public holidays**, weather permitting. Roads and Maritime has contracted DownerMouchel to do this work.

The NSW Government has fully funded this project is part of the $265 million Pinch Point Program which aims to reduce delays and manage congestion on Sydney’s main roads, as well as improve road safety for all road users.

Works will include:
- providing dedicated left turn lanes on James Ruse Drive southbound to Grand Avenue and northbound to Hassall Street
- providing an extended right turn lane on James Ruse Drive northbound into Grand Avenue
- improving corner kerbs to make it easier for turning truck
- building and improving pedestrian crossings and access to the racecourse.

**Changed traffic conditions**

Minor delays are expected due to changed traffic conditions. Partial lane closures will be in place while work is carried out to ensure safety of road users and workers. Road users are asked to follow the direction of traffic controllers and to adhere to reduced speed limits and follow traffic signs.

There will be noise associated with this work, but every effort will be made to minimise the impact on residents and businesses including scheduling work at different locations each night.

Roads and Maritime and DownerMouchel apologise for any inconvenience this essential night improvement work may cause and appreciate the patience of residents, businesses and road users. The community will be provided with further updates throughout this project.

Up to date information, including any date changes and detours, will be displayed on electronic message signs along the road.
