Project update – Northbound bus bay extension on Windsor Road, Baulkham Hills

The NSW Government is funding this project to upgrade the bus bay between Torrs Street and Cook Street, as part of the Bus Priority Infrastructure Program to make bus services faster and more reliable.

In January and February 2017 Roads and Maritime Services invited feedback on a proposal to extend the northbound bus bay on Windsor Road, Baulkham Hills.

We received feedback from six people. Key issues included suggestions to further extend the bus bay, questions about vegetation removal and a request for a second bus shelter. After considering all responses, we have decided to proceed with the proposed design.

We also received feedback about the work schedule with two people supporting the proposed night work schedule and one supporting the alternative schedule. In response to this feedback we are investigating options to adjust the work plan and reduce the number of night shifts.

Following a review of the comments, we have prepared a Community Consultation Report, summarising the feedback and our responses. A copy of this report is available at www.rms.nsw.gov.au/bppor by contacting our delivery partner.

We thank everyone for considering the proposal and for providing feedback.

What happens next?

We expect work to start in mid-2017 and will continue to keep the community updated.

During construction the temporary bus stop will be 60 metres north of the existing stop. When the work is finished the bus shelter will be just north of its current location.

Contact

If you have any questions, please contact our delivery partner, DownerMouchel, on 1800 332 660 or enquiries_nsw@downermouchel.com.

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
Extension of the northbound bus bay on Windsor Road, Baulkham Hills
