Changes to the bus stop on Willoughby Road opposite Garland Road, Naremburn

The NSW Government has funded the Bus Priority Infrastructure Program. The program aims to improve the reliability of bus services on Sydney’s main bus corridors.

Transport for NSW has identified some ways to improve the reliability of buses along the Bondi Junction to Chatswood bus corridor.

From **Monday 10 September 2018** as part of this program, Transport for NSW and Roads and Maritime Services will extend the northbound bus stop on Willoughby Road opposite Garland Road, Naremburn. This stop is serviced by routes M40, 257, 272 and 343.

We have included a map to help explain our changes.

**Background**

These changes support *Future Transport Strategy 2056*, which is the NSW Government’s plan to deliver the future transport network. In this plan, a key customer outcome is safety and performance, which seeks to ensure that every customer enjoys safe travel across a high performing and efficient network. It also reflects what our customers tell us about bus services, with travel time and on-time running being some of the most important service features.

The bus stop changes have been developed by Transport for NSW and Roads and Maritime, in consultation with bus operators. The local council was consulted as part of the planning work.

**Key outcomes**

Key outcomes of the bus stop changes include:

- Improving customer and motorist safety for bus operations
- Making travel times more reliable for customers
- Contributing to the NSW Government’s target of 95 per cent on-time running of bus services.

**Bus stop changes**

The northbound bus stop changes for Willoughby Road opposite Garland Road, Naremburn, include:

- Extension of the bus stop number 206551 by 20 metres southeast to cater for an additional bus
- Extension of the footpath by 10 metres
- Removal of some minor vegetation.

There is no loss of parking with the bus stop changes.

**What happens next?**

The changes will be implemented from **Monday 10 September 2018**.

Works to extend the footpath and clear vegetation are expected to be completed by mid-December 2018.

We will keep the community updated throughout the project.
