Project update - Proposed improvements at the intersection of Bexley Road and Canterbury Road, Campsie

The NSW Government is funding this proposal as part of its $300 million Urban Roads Pinch Point Program, which aims to reduce traffic delays, manage congestion and improve travel times on Sydney’s major roads, particularly during weekday peak periods.

During October, Roads and Maritime Services sought community feedback on a proposal to improve this intersection by extending the length of the right turn lane from Bexley Road to Canterbury Road to reduce the occurrence of vehicles queueing into the northbound through traffic lanes. Bexley Road will be slightly widened on the eastern side to allow for the extension of the turning lane. We also propose to prohibit right turns from Bexley Lane into to Bexley Road, installing no right turn and stop signs.

We received comments about the proposal from 11 people and two organisations. Of the 13 submissions, all were generally in favour of the proposal, with one against prohibiting the right turn from Bexley Lane. Key matters identified included the overdue need for the proposal, suggestions for additional improvements at the intersection, safety and traffic movements, environmental issues, drainage and matters that were outside the scope of the proposal.

We have now prepared a Community Consultation Report that summarises feedback received and our responses. A copy of this report is available at www.rms.nsw.gov.au/projects or by contacting the project team.

We would like to thank everyone who took time to consider our proposal and provide feedback.

Following a review of all feedback, we have decided to proceed with investigating this proposal without change.

What happens now

Roads and Maritime Services is currently working to identify the location of utilities and services in the vicinity of the proposed intersection improvement, and any necessary service relocations. This work may take some time to finalise.

We will contact you again early in the new year to advise you of the project’s progress.

Contact

If you have any questions about the proposal, please contact our project manager, Kaitlin Reidy on 0404 893 456 during business hours. For more information on our projects, visit rms.nsw.gov.au
