

Intersection improvements at Heathcote Road and Macarthur Drive, Hammondville

Heathcote Road

Heathcote Road

Macarthur Drive

One southbound lane will be closed for six weeks

Roundabout changed to single lane operation for some traffic movements

New median to separate through and right traffic

Signalised right turn slip lane into Macarthur Drive

Northbound traffic will be able to move through the roundabout more frequently

The existing traffic lights control both the through and right turn movement. Installing a new traffic light that only controls the right hand turn, will allow straight through traffic to move more freely through the roundabout.

Key
— Proposed new line markings
