

## Investigation work for proposed intersection improvements on Henry Lawson Drive, Georges Hall from Monday 28 May

The NSW Government is funding this proposal as part of its \$300 million Urban Roads Pinch Point Program, which aims to reduce congestion and improve travel times on Sydney's busiest corridors.

Roads and Maritime Services will be carrying out investigation work on Henry Lawson Drive, Georges Hall. Parts of some side streets will also be included.

We will be drilling to establish ground conditions and surveying to locate drainage, underground utilities and overhead wiring to help develop a design for proposed intersection improvements at Henry Lawson Drive, Georges Hall.

We have included a map to show the location of the investigation work.
