

Project update – Intersection improvements on the Princes Highway, King Georges Road and Stuart Street, Blakehurst

The NSW Government is funding this proposal as part of its \$300 million Gateway to the South Pinch Point Program which aims to ease congestion and improve journey reliability on Sydney’s key southern corridors.

Roads and Maritime Services invited feedback in October on an updated proposal to improve traffic flow on Stuart Street at the intersection of the Princes Highway and King Georges Road.

What we proposed

The proposal includes installing an eastbound concrete median on Stuart Street and redirecting motorists to access Princes Highway and King Georges Road via Phillip Street and Water Street.

These proposed changes will increase traffic efficiency for over 12,000 vehicles travelling through the intersection during peak periods each day, reduce travel times and queueing vehicles, and improve road user safety.

Your feedback

Roads and Maritime received feedback from over 100 local residents and businesses that is now being reviewed. Questions raised during the consultation period will be responded to and included in the final consultation report.

What happens next?

We will continue to work with key stakeholders to consider the needs and expectations of the community and all road users who travel through the A1 and A3 corridor.

We will provide an update, including a final consultation report detailing our responses to the feedback received, in **early 2018**. The final consultation report will be available on the project webpage at rms.nsw.gov.au/stuart-blakehurst

Contact

If you have any further questions, please contact our Gateway to the South project team (during business hours) on 1800 572 114 or g2s@rms.nsw.gov.au.
