Rose Bay Seaplane Facility upgrade

Construction

Construction is expected to start in September and will take around four months.
The new facility is expected to open in December 2015, weather permitting.

What to expect during the upgrade

Seaplane operations will continue and the foreshore, nearby businesses and Lyne Park will be accessible during construction.

Work to be carried out will include:

- Installation of a temporary site compound and fencing around the perimeter of the construction site
- Establishment of temporary access between the carpark and the site - land will be fully reinstated following construction
- Removal of the existing building and piles
- Installation of the new structures including steel support piles
- Interior and exterior finishes and museum fit out.

Equipment will include trucks and cranes and barges and service boats in the water.

Work will be carried out during standard construction hours. These are 7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.

A construction management plan that includes noise, pedestrian and traffic management will be in place during construction.

The project team will work directly with stakeholders to minimise impacts associated with work activities in accordance with the conditions of consent and keep the local community updated during work.

Contact the team

Community liaison officers will provide a point of contact for any construction queries.
