Temporary concrete batching plant construction and operation on the corner of Cowpasture and Bringelly Roads, Leppington from Monday 14 September

The Australian and NSW governments are funding this work as part of the $509 million Bringelly Road Upgrade between Camden Valley Way, Leppington and King Street, Rossmore. This project is part of the Western Sydney Infrastructure Plan.

Roads and Maritime Services will carry out work to build a temporary concrete batching plant within the construction site on Cowpasture Road, Leppington. The concrete batching plant will mix concrete at the site, helping to speed up the delivery of concrete to our construction sites. It will also reduce construction traffic in the area as concrete will be made at the site, rather than being transported to the site. The attached map shows the location of the batching plant.

The work to build the batching plant will be carried out from Monday 14 September to Friday 25 September, weather permitting. Our working hours will be from 7am to 6pm, Monday to Friday and 8am to 1pm on Saturdays. The batching plant will operate 7am to 6pm, Monday to Friday and 8am to 1pm on Saturdays until late 2017.

How will the work affect you?
There will be some noise and dust associated with the construction and operation of the batching plant especially during aggregate deliveries, loader movements and loading the mixing trucks. Every effort will be made to reduce dust by using dust suppression systems and sprinklers during construction and a covered conveyor and dust extraction system during operation.

Traffic changes
Trucks will access the batching plant from Cowpasture Road.

Access to properties will be maintained throughout the work. There may be occasional short delays to traffic along Bringelly Road as traffic controllers help trucks to safely enter and exit our construction sites.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact
If you have any questions, please call our project team on 1800 199 009 or email bringellyroadupgrade@bmd.com.au or visit rms.nsw.gov.au/bringellyroad.

Thank you for your patience during this important work.
Western Sydney Infrastructure Plan
The Australian and NSW governments are funding a 10 year, $3.6 billion road investment program for western Sydney. The Western Sydney Infrastructure Plan (WSIP) will deliver major road infrastructure upgrades to support integrated transport for the region and capitalise on the economic benefits from developing a western Sydney airport at Badgerys Creek. It will also improve safety, increase road capacity and reduce congestion and travel times in the future. For more information on WSIP projects, visit rms.nsw.gov.au/WSIP or call 1800 703 457.
