

# Camp Street Bridge replacement

## Heavy vehicle detour

Traffic will be detoured for around 43 weeks during the construction period.

Heavy vehicles over 22.5 tonne (excluding buses) will be detoured around Forbes via Wirrinya Road. The heavy vehicle detour route will be sign posted during construction and will add approximately 15.5 kilometres or 22 minutes to travel times.

Light vehicles and buses will be able to use the existing local road network while the Camp Street Bridge crossing is closed.
